goalie

in a class  
all his  
OWN.

Designed specifically for goalies, the REACTOR\* line is in there protecting you while you protect your territory. Where all the action is. Where all the stars shine.

BAUER understands how important style and instinct is for goalies. No matter where the shot is fired from, your eyes are riveted on the puck. Focus. Concentrate. React. BAUER wants you not only to have the best, they also want you to look your best as you instinctively reach out and make that glove save high in the top shelf. The one that could have tied the game. The one that should have gone in. For the player everyone depends on to pull through when everything else is falling apart, BAUER introduces a product line in a class all its own.

REACTOR

The new BAUER® REACTOR® 6 line of products will protect you as never before. As you strive to be the best, you can't question your equipment. BAUER knows how important it is to be supported by the best equipment there is to stop, catch, and block whatever is being thrown at you. The asymmetrical design of the UB6000\* Super Pro Upper Body Protection allows for faster and improved fluid motion.

TRETIK

"Important to have own style, important to have instinct to stop puck".

# The best a goalie can get.

ED BELFOUR  
CHICAGO BLACK HAWKS

"It shows that the guy means business. He's intense, and focused. That could be the difference between winning an overtime game in the Stanley Cup playoffs".

Improve your puck control with the GM6000C\* Super Pro Catch Glove. The three-strap adjustment system for fingers, hand and wrist enables a custom fit and better control. The asymmetrical design of the GM6000S\* Super Pro Blocker increases the front cover blocking surface by eliminating blocker and arm/paddle overlap.

**REACTOR\*** skates  
 because you  
 too, need to move  
 quickly  
 on ice.

**REACTOR\***  
**5000\***

**REACTOR\* 5000\* SUPER PRO GOAL SKATES**

- Anatomically designed Flolite® ankle support system molds to individual contours of ankle for customized fit.

TRETIK  
 TRETIK

“With **BAUER®** skates  
 you play best...  
 nothing better”.

- Superfeet® IV anatomical footbed maximizes power and improves comfort by aligning foot to the blade.
- FORMFIT® PLUS tongue combines air pads, metatarsal guard, felt and leather for improved fit and added protection.
- Pre-laminated Clarino® lining allows for fast break-in of skate and added comfort.
- Black TUUK® goaler cowling with 28" blade radius on senior models.

# Superior fit and protection.

## REACTOR\* 3000\*

### REACTOR\* 3000\* PRO GOAL SKATES

- Foam ankle pads for superior fit and protection.
- Three-piece leather tongue.
- Durable full-grain leather trim and cut-resistant nylon.
- Pre-laminated Clarino® lining allows for fast break-in of skate and added comfort.

## REACTOR\* 1000\*

### REACTOR\* 1000\* GOAL SKATES

- Superfit® footbed aligns foot to blade, maximizing power transfer.
- Durable full-grain leather trim and cut-resistant nylon.
- Comfortable split suede leather lining.

# Flexible. Durable.

## The ultimate in goal pads.

REACTOR\* 6 GP6000\*

ERGO  
FLEX

### 1. REACTOR\* 6 GP6000\* SUPER PRO GOAL PAD

- Two-way axis system allows for maximum vertical and lateral flex, a better fit and increased comfort.
- Contoured front and back cover follows the anatomical shape of leg in crouched position.

ED BELFOUR  
CHICAGO BLACK HAWKS

"That's a nice design. It allows the pad to turn with your knee".

- ### 2.
- FLEXX DARTS\* top outside roll and outside knee flex panel enhances flexibility in the knee area.
  - Front cover wedges offer increased blocking surface and puck control.

- ### 3.
- Lower boot lock keeps pad in position.
  - Anatomically adjustable thigh pad provides lower thigh protection.
  - Anatomical knee and shin lock prevents pad rotation.
  - Sofrina<sup>®</sup> covering and wear patches increase durability.

# Increased comfort.

## REACTOR\*5 GP5000\*

REACTOR\*5 GP5000\* SUPER PRO GOAL PAD

- FLEXX DARTS\* top outside roll enhances flexibility in the knee area.
- Angled shin and boot follows the anatomical shape of leg in the crouched position.
- Knee and shin lock prevents pad rotation.
- Double 5-hole role helps close 5-hole.
- Sofrina\* covering and wear patches increase durability.
- Anatomical adjustable thigh pad provides lower thigh protection.

## REACTOR\*4 GP4000\*

REACTOR\*4 GP4000\* SUPER PRO GOAL PAD

- FLEXX DARTS\* top outside roll and FLEXX ZONE\* knee pattern enhance flexibility in the knee area.
- Knee lock secures knee in leg channel.
- Sofrina\* covering and wear patches increase durability.
- Lightweight foam construction for increased comfort.
- Straight thigh and shin ideal for stand-up style.
- Raised triangular 5-hole role for optimal 5-hole coverage.
- Replacement loops for thigh pad. Can be purchased separately.

# Good fitting. Best results.

## GOAL PAD FITTING:

The centre of the player's knee should be positioned in the middle of the centre knee roll with the pad securely attached to the goal skate and properly located on the player's leg. Foam constructions do not settle with time and, therefore, no allowance need be made for this when fitting the pad initially.

## PLEASE NOTE:

The sizes given are a guide and do not take into account an individual's boot and thigh size. These also enlarge as overall length increases. Please fit accordingly, allowing for the goaltenders personal style.

# REACTOR\*5 UB5000\*

## REACTOR\*5 UB5000\* SENIOR PRO UPPER BODY PROTECTION

- Anatomical belly pattern offers best fit and maximum flexibility.
- Two-way adjustment system for tailored fit and maximum protection of neck, arms and shoulders.
- Coolmax<sup>®</sup> lining for added coolness and comfort.
- Large contoured shoulder caps for complete arm protection and blocking surface.
- Full-length spinal coverage anchors body pad and provides spinal protection.
- Rib protectors for increased flexibility and rib protection.
- Tapered forearms improves glove and body pad interface.

# REACTOR\*3 UB3000S\*

## REACTOR\*3 UB3000S\* SENIOR UPPER BODY PROTECTION

- Anatomical belly pattern offers maximum flexibility.
- One-way adjustment system for adjustable arm lengths.
- Spinal protector anchors body pad and provides spinal protection.
- Tapered forearms improve glove and body pad interface.

## REACTOR\*3 UB3000J\* JUNIOR UPPER BODY PROTECTION (not shown)

- Anatomical belly pattern offers maximum flexibility.
- One-way adjustment system for adjustable arm lengths.
- Spinal protector anchors body pad and provides spinal protection.
- Tapered forearms improve glove and body pad interface.

# REACTOR\*1 SABP22\*

## REACTOR\*1 SABP22\* UPPER BODY PROTECTION

- Velcro® shoulder attachment for arm length adjustment.
- Tapered forearms improve glove and body pad interface.
- Lightweight foam and Lycra® spandex construction.

The  
**upper** body protection  
you deserve.

# REACTOR\*1 UB900\* UB500\*

## REACTOR\*1 UB900\* UPPER BODY PROTECTION

- Nylon covering delivers water-resistant and durable coverage.
- Large shoulder floaters offer protection and larger blocking area.
- Velcro® shoulder attachment for arm length adjustment.
- Spinal pad anchors body pad and provides spinal protection.

## REACTOR\*1 UB500\* UPPER BODY PROTECTION

- Nylon covering delivers water-resistant and durable coverage.
- Large shoulder floaters offer protection and larger blocking area.
- Velcro® shoulder attachment for arm length adjustment.
- Spinal pad anchors body pad and provides spinal protection.

	UPPER BODY PAD	SIZE
REACTOR*	SABP22LFR	Large Full Right
	SABP22L	Large Regular
	SABP22FR	Medium Full Right
	SABP22	Medium Regular
	SABP22JR	Junior Regular
	UB900	Large
	UB900	Medium
	UB500	Large
	UB500	Small

# More protection.

## Shoulder & body pads.

REACTOR\* SA95\*

REACTOR\* SA55\*

**SHOULDER/ARM PAD FITTING.** The shoulder and elbow caps should be positioned directly on the shoulder and elbow tips respectively. Arm lengths should be determined in conjunction with catch glove and blocker. In a relaxed state, with the arms at side, the shoulder/arm pads should go into the cuff of the goal glove and blocker no more than 1.5" (3.8 cm). More than this will cause binding and restrict movement.

### REACTOR\* SA95\* ARM PAD

- Nylon, foam and polyethylene construction for durability and protection.

### REACTOR\* SA55\* ARM PAD

- Nylon, foam and polyethylene construction for durability and protection.
- Quilted foundation provides maximum comfort.

REACTOR\* BP90\*

REACTOR\* BP30\*

REACTOR\* BP9\*

**BODY PAD FITTING.** The most important consideration is length. Length is a personal preference based on goalie style. In general, the bottom of the body pad should meet or slightly overlap the top of the protection cup when the player is in a crouched position. The body pad should be sized in conjunction with the shoulder/arm pad and goal pants to ensure full coverage protection and resistance-free motion.

### REACTOR\* BP90\* CHEST PAD

- Foam construction offer lightweight protection.
- Wrap-around protective shoulder wings.

### REACTOR\* BP30\* CHEST PAD

- Nylon, foam and polyethylene construction for durability and protection.
- Fully covered and lined with waterproof nylon.

### REACTOR\* BP9\* CHEST PAD

- Nylon, foam and polyethylene construction for durability and protection.
- Shoulder cap wing extensions for proper fit.

REACTOR*	ARM PAD	SIZE
	SA95L/SA55L	Large Senior
SA95/SA55	Medium Senior	
CHEST PAD		OVERALL LENGTH
BP30M	24" / 60 cm	
BP90	23" / 60 cm	
BP30S	22" / 55 cm	
BP9	21" / 52.5 cm	
BP90	20" / 50 cm

# To defend your REACTOR\* territory. sticks...

TRETIAK

"It [R5000] is light and strong. That's what you need".

The goalie's stick. The best weapon for closing the nooks and crannies that forwards look for. To shut down the offence. To show who is in command.

## REACTOR\*5 R5000\* SUPER PRO LIGHT

- Lightest premium pro design for quick reaction.
- Aircraft veneer handle of 10-ply birch veneer on each side with solid aspen core.
- Lightweight and durable for conventional and "strong paddle" goalies.

Blade: Glass-wrapped tough-textured white 4-ply ash with Kevlar† wearband and graphite reinforcement for improved durability and bottom blade stiffness.

Standard 3 pack

## REACTOR\*4 R4000\* PRO LIGHT

- Light premium pro design.
- 19-ply horizontal birch veneer handle for stiffness and durability.
- Ideal balance of strength for stopping the puck and lightness for quick reaction and shooting.

Blade: Glass-wrapped tough-textured white ash with Kevlar† wearband and graphite reinforcement for improved durability and blade bottom stiffness. Standard 3 pack

## REACTOR\*3 R3000\* PRO

Shaft: 19-ply horizontal birch veneer handle for stiffness and durability; Light stick with strong paddle for stand up goalies; Same pattern and features found in our top R5000\* stick.

Blade: Glass-wrapped tough-textured white ash with Kevlar† wearband reinforcement for improved durability and blade bottom stiffness. Standard 3 pack

## REACTOR\*3 R3000JR\* JUNIOR PRO

- Solid hand selected second growth white ash.
- Good feel, well proportioned junior size.

Blade: Solid tough textured white ash with fiberglass sandwich wrap; ABS heel increases durability. Standard 6 pack

## REACTOR\*1 R500\* INTERMEDIATE

- Aircraft veneer handle of 19-ply horizontal birch veneer.

Blade: Solid tough textured white ash with fiberglass sandwich wrap; ABS heel increases durability. Standard 3 pack

## REACTOR\*1 R300\* BEGINNER

- Solid hand selected second growth white ash with traditional look.
- Good feel, well proportioned junior size.

Blade: Solid tough textured white ash with fiberglass sandwich wrap; ABS heel increases durability. Standard 6 pack

## REACTOR\*1 R100\* BEGINNER

Shaft: Solid hand selected second growth white ash; Good feel, well proportioned for beginners.

Blade: Solid tough textured white ash. Standard 6 pack

## M3000\*

### M3000S\*/M3000J\* MASK AND HELMET

- Lightweight polyethylene shell.
- Hinged jaw allows easy access to airways and face.
- Three-screw adjustable back plate for custom fit.
- Carbon-tempered steel cage provides a durable cage with excellent peripheral vision.
- CSA and HECC certified.
- Complete with nylon and breathable mesh carry bag.

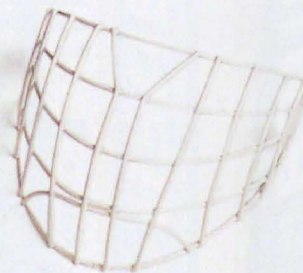

MODEL	SIZE
M3000 Senior	7 3/8 - 7 7/8" (59-63 cm)
M3000 Junior	6 5/8 - 7 3/8" (53-59 cm)

Available in White, Black.

### EAGLE AND BASIC DECAL KITS

- Application instructions are included.
- Decals are for both black and white masks, and white masks.
- The M3000 mask is CSA and HECC certified with decal.

## GC3000\*

### GC3000S\*/GC3000J\* FACE MASK

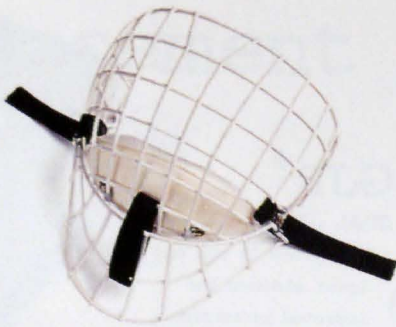

- Integrated goal mask and helmet.
- Senior and Junior M3000\*
- CSA and HECC certified.

## GL100\*

### WIRE FACE MASK

- Full facial coverage.
- Strategic wire pattern for maximum visibility.
- Pivoting wire throat extension.
- Extended ear coverage.

## TP\*

### THROAT PROTECTOR

- High-density polyethylene construction.
- Foam padded lower edge.
- Available in Black, Blue, Red and White.

## GTP\*

### THROAT PROTECTOR

- Lightweight, polycarbonate construction for added protection.

NOTE: THE GTP\* THROAT PROTECTOR DOES NOT MEET BNQ REQUIREMENTS AND SHOULD NOT BE WORN IN PLACE OF A CERTIFIED NECK PROTECTOR.

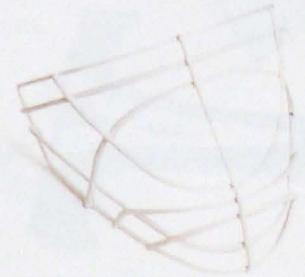

GC3500, M3500, HM30.

NOTE: THESE FIELD HOCKEY MASKS AND HELMETS ARE NOT INTENDED FOR ICE HOCKEY USAGE. NOT CERTIFIED BY CSA OR HECC.

## GC3500\*

### GC3500S\*/GC3500J\* FIELD HOCKEY FACE MASK

- For broomball and field hockey
- Strategic wire pattern for maximum visibility.
- Attachment hardware included.
- Replacement cage for Senior and Junior M3500\*

## M3500\*

### FIELD HOCKEY MASK AND HELMET

- For broomball and field hockey goalkeepers.
- Lightweight polyethylene shell.
- Three screws adjustable back plate for custom fit.
- Steel cage provides excellent peripheral vision.

## HM30\*

### FIELD HOCKEY FACEGUARD

- For broomball and field hockey goalkeepers.
- Attachment hardware included.

GOALTENDERS ARE REQUIRED TO WEAR HELMETS AND FACEMASKS FOR ALL LEVELS OF PLAY. THESE MUST MEET CSA OR HECC CERTIFICATION STANDARDS. GC3000S AND GC3000J MEET OR EXCEED THESE STANDARDS.

WARNING: ICE HOCKEY IS A COLLISION SPORT WHICH IS DANGEROUS. THESE HELMETS OR HELMET/FACE MASK COMBINATIONS AFFORD NO PROTECTION FROM NECK OR SPINAL INJURY. SEVERE HEAD, BRAIN, OR SPINAL INJURIES INCLUDING PARALYSIS OR DEATH MAY OCCUR DESPITE USING THIS HELMET OR HELMET/FACE MASK COMBINATION. DO NOT USE THIS HELMET OR HELMET/FACE MASK COMBINATION IF THE SHELL IS CRACKED, OR IF THE INTERIOR PADDING IS DETERIORATED. READ INSTRUCTIONS CAREFULLY BEFORE WEARING.

## VISE\* TRAP

- Replacement senior GM4000C\* Trap.

## PIT\* TRAP

- Replacement senior Trap.
- Fits on 1996 GM5000C only.

## GJR\*

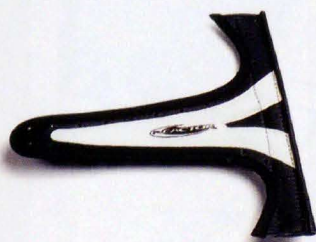

### GOAL JOCK

- Air system in cup and lower abdomen for improved protection.
- Deep molded cup for full wrap-around protection.
- Adjustable 3" elastic waistband for custom fit.

MODEL	SIZE
GJR SR.	30-38" (76-96 cm)
GJR JR.	25-32" (63-81 cm)

WARNING: GOAL JACKS ARE DESIGNED TO MINIMIZE THE RISK OF INJURY. NO ATHLETIC CUP CAN ELIMINATE ALL POTENTIAL INJURIES.

## VTRAP

- Replacement senior V-Trap.
- Available in Junior and Senior sizes.

## ARC\* TRAP

- Replacement senior GM6000C\* Trap.

## KPR\*

### KNEE PROTECTOR

- Water-resistant nylon covering.
- Foam and polyethylene protection on both sides of knee.
- Inner thigh pad offers added protection on the inside thigh.
- Angled elastic straps for custom adjustment.
- Lateral knee flaps for full knee protection.

MODEL	SIZE
KPR SR.	14.5" (37 cm)
KPR JR.	12.5" (32 cm)

## T-TRAP

- Replacement senior T-Trap and lace.
- Available in any colour.

## GSB

- Replacement sweatband for M3000\* and M3500\* goal mask.
- Sold in pairs.

## GPX\*

### KNEE PAD

- High-density ARMOURFOAM\* provides lightweight protection to knee and thigh.
- Senior and junior sizes.

## RTP\*

REPLACEMENT SENIOR THIGH PAD.

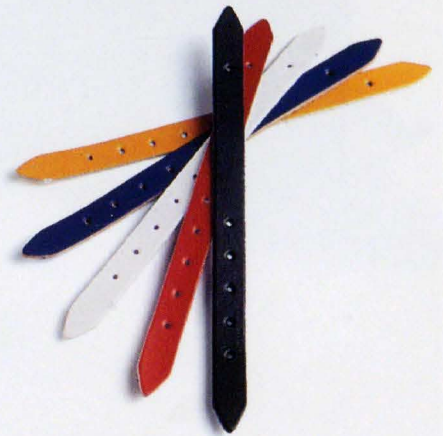

- Attaches to GP6000/5000/4000.

## TLA\*

TOE LACE ATTACHMENT.

- Replace toe straps with laces.
- Sold in pairs.

## S11\*

REPLACEMENT TOE STRAPS.

- Sold in pairs.
- Available in Black, Blue, Red, Gold and White.

## GCC\*

- Replacement chin cup, straps and snaps.
- M3000 senior and junior.

## S29\* / S33\*

REPLACEMENT LEG STRAPS.

- Sold in pairs. (29" or 33")
- Available in Black, Blue, Red, Gold and White.

# Bagging it!

## REACTOR\* 5 Goal Bag

BRRCTR5 GOAL BAG

- 44"x20"x20" (112x51x51 cm)
- 600D polyester.
- Large end pockets.
- Available in 2 colours.
