BAUER

DIGI-PRINT

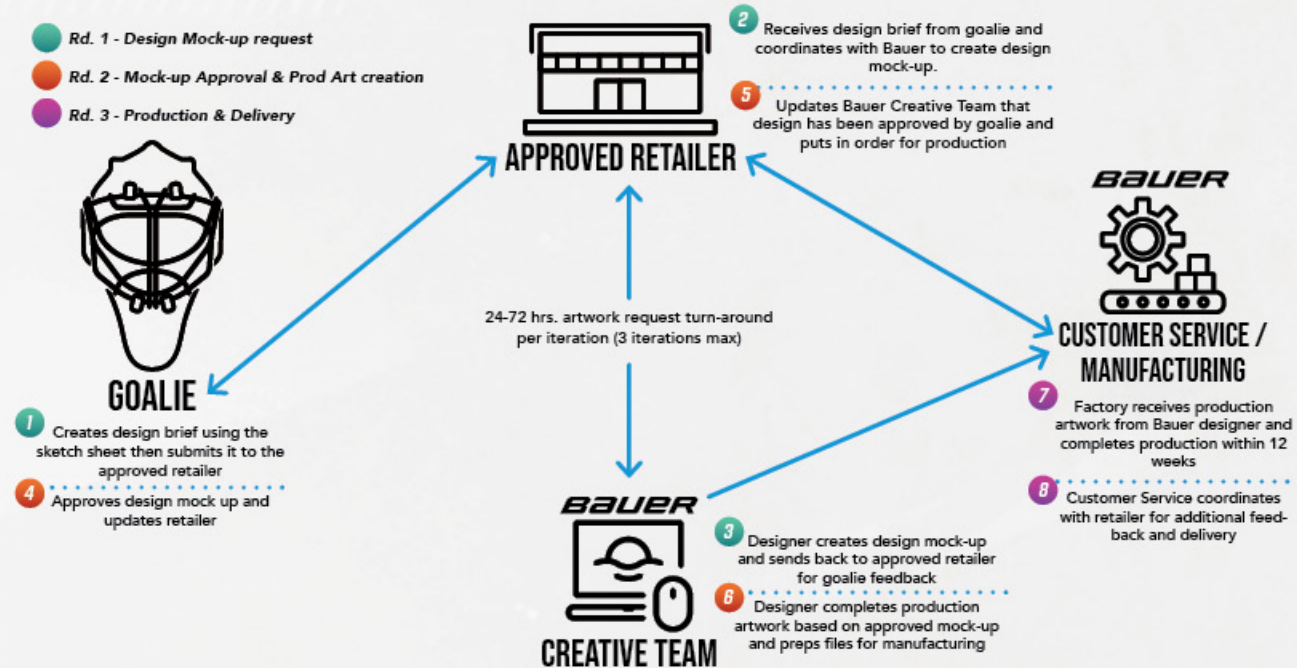

» DIGI-PRINT : What is it?

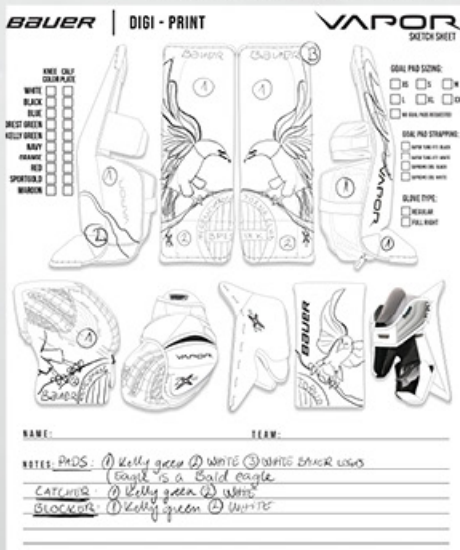

Bauer elite pads utilize "Digitally Printed" graphics. Digital printing allows a digital-based image to be printed directly to the surface material of our pads and gloves.

It is then coated to protect the image so it will not fade/deteriorate over time. Now that we are opening this technology up for custom design - it means virtually limitless capabilities with no added weight or impact to pad performance or durability.
