VIBRATION DAMPENING SHELL

The NME 10 has a full layer of 12k carbon weave protecting its fiberglass foundation. The INNEGRA™ fiber in the forehead and chin provides vibration dampening in the areas which are most frequently impacted.

COMFORT LINER

Multiple layers of VN foam provide impact absorption near the outer shell. PORON® foams in the NME 10 deliver superior impact absorption closest to the face while soft comfort zones relieve compression around pressure points.

*Products carrying a Non-Certified designation do not meet the certification requirements of CSA and HECC. Not for sale in Canada.

VIBRATION DAMPENING TAPE

The new NME masks reduce vibration and "ringing" by adding a unique tape to the inside of the shell. The vibration dampening tape helps disperse energy traveling through the shell before it reaches the liner.

WIRE WRAP TECHNOLOGY

The new NME masks have added protection around the wire to help absorb impact and prevent damage to the shell.

*Products carrying a Non-Certified designation do not meet the certification requirements of CSA and HECC. Not for sale in Canada.

Goal Mask Sizing

It is recommended that all goaltenders wear CSA and HECC certified masks. All CSA and HECC certified masks have a sticker indicating their certification.

When fitting a BAUER goaltender mask, adjust the unit so that the upper perimeter of the frontal component is 1/4 inch above the eyebrow. For a proper fit, make sure all straps are fastened so that the chin cup fits snugly against the chin.

Fitting Guide: When fitted properly, goal pants should provide unrestricted movement in the crouch position, but should not be so loose that they rotate excessively around the waist. Loosely fitting pants provide superior net coverage in addition to making the goalie look bigger. Goal pants should provide overlapping coverage with the bottom of the chest pad and the tops of the goal pads.

BACK SKATE LOOP

A nylon loop on the back of the boot provides a new option for goalies who prefer to feed the boot strap behind the skate.

CURV® COMPOSITE BOOT

The new REACTOR 9000 features Curv® composite boot providing structural support while reducing weight and adding durability over time.

PORON® XRD™ ANKLE PADDING

PORON® XRD™ foam technology provides unmatched comfort in the boot. The foam helps form around the ankle to provide comfort and manage impact.

HANDLE

2 carbon strips run along the front and back of the handle to add stiffness and reduce breakage.

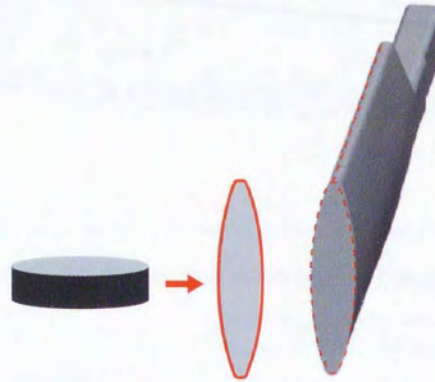

PADDLE

10 carbon strips run along the front and back of the paddle to add stiffness and reduce breakage.

TRADITIONAL PADDLE GEOMETRY

Symmetrical geometry and foam core paddle construction provides traditional feel and performance.

REACTOR PADDLE MEASURING

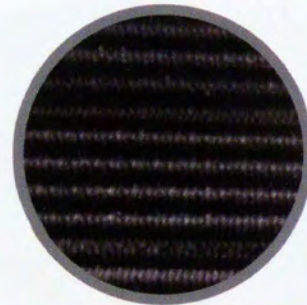

— REACTOR METHOD

"REACTOR 25" = SUPREME 26.5"

CARBON TRIAXIAL BRAID

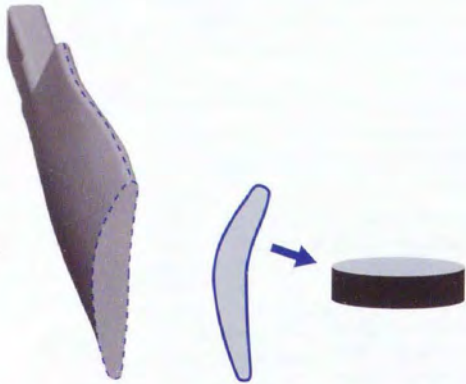

Carbon triaxial braid is used to reinforce the blade, add stiffness, and reduce breakage.

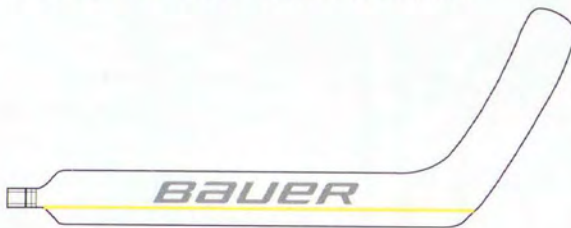

SUPREME TOTALONE^{NXG}

ERGONOMIC PADDLE GEOMETRY

Patented ergonomic geometry allows the paddle to seal closer to the pads and body. The concave paddle front increases rebound control and reduces weight.

SUPREME PADDLE MEASURING

— SUPREME METHOD

*SUPREME 26.5" = REACTOR 25"

INNEGRA FIBER

Unique INNEGRA™ fiber woven with carbon reinforcement combines maximum durability with the feel of foam core.

CONTROL ZONE

Ergonomic shaped control zone with GRIPTAC on the shoulder for control during saves.

AIR CHANNEL CORE TECHNOLOGY

An air channel in the paddle significantly reduces weight and improves vibration dampening.

WARNING: Goal jocks are designed to minimize the risk of injury. No athletic cup can eliminate all potential injuries. Neck protectors are recommended to reduce the risk of injury resulting from skate cuts in the protective zone of the product. Neck protectors cannot protect against all potential injuries. Collar style protectors provide coverage at critical areas. Use a bib-type style to extend protective area down to the upper chest, from shoulder to shoulder. Turtleneck style neck protectors feature a cut resistant bib extension which overlaps the shoulder pads.
