## VPG 7600 VELOCITY 4

All new for 2010 the new Velocity 4 goal pad is a complete new design with new engineering and features to enhance the superior performance of the ever popular Velocity style goal pad. The new V 4 goal pad is constructed using a new internal core that provides lighter weight and a more sturdy structure with increased perimeter edge strength for a stronger puck blocking surface. New wider inside pad edge gives a more stable landing area while on the ice and provides added stability for more dynamic slides across the ice for improved balance and control. Tall plus one sizing with tall thigh rise helps seal off the five-hole area and new lower pad break angle holds the pad taller for improved net coverage in all positions. New narrower outer side panel provides lighter weight and improved lateral pad balance for improved feel and improves the pad interaction with the pants when transitioning to the ice. New wider leg and knee cradle is lined with a specially designed low friction Micro fiber synthetic leather. This speeds pad rotation for faster movement and a quicker pad seal to the ice. New inner toe design helps the skate blade contact the ice sooner for faster recovery and added control. The new wider knee cradle also features a double elastic strap with dual Velcro adjustments for a custom fit. New higher density inside knee protection provides added protection and greater stability, new knee lifter design and construction uses higher density foams layered to maximize protection and impact resistance for less shock to the inner knee area when impacting the ice.

- Full pro spec construction with new inner core gives greater pad stability in both length and width
- Wider inner edge allows for a more control in aggressive pad slide moves
- Low profile balance stabilizer allows for quicker movement and provides greater stability while in a butterfly position on the ice
- New dual knee straps provide greater adjustment and increased pad control
- Flex-Pac internal padding system allows for pad to break-in to the user and provides added rebound control
- Firmer perimeter edge for more effective puck blocking
- Wider leg cradle with low friction material for quick pad rotation
- Low pad scoop angle designed to hold pad in improved position for more effective use of pad height
- Narrower outer pad panel reduces weight and improves lateral balance
- New Velocity 4 pad averages 15% lighter than previous models
- New graphics present a taller visual appearance to make the goaltender look larger
- Molded thigh boards with lace adjustment for added protection
- Available in sizes 32"+1", 33"+1", 34"+1", 35"+1", 36"+1", 37"+1", 38" and custom sizes

## VPG 8800 EPIC

The Epic 8800 leg pad features full Pro specification construction. A narrower side profile construction provides lighter weight and less bulk for quicker leg movements. The pad front surface features our revolutionary rebound control technology foam that effectively deadens shots to provide lower rebounds and greater puck control. The Epic 8800 size and dimensions comply with all new league rule specifications. The Epic goal pad design allows the pad to quickly react to leg movements, which provide greater pad control giving the goaltenders the ultimate in control and quickness. Full-length leg cradle with a wider center construction, supports the leg off the ice and provides balance on the inner edge of the pad. This keeps the leg supported above the ice to allow maximum leg extension

while reducing stress on the knees and hips and allows for quicker leg rotation along the ice. The inside edge of the pad gives a flat inner edge and knee platform for improved body balance. The narrower side panel reduces pad drag to allow for quicker pad slide, along the inner edge and properly positions the pads on the ice. Knee hugger curved shape in the top section of the pad, keeps the pad from drifting away from the knee and closes the top thigh portion of the pads when down on the ice reducing five hole gaps. The wedge shaped outside rolls provide a wider front blocking surface and rigid outer pad edge, which will increase net coverage and stabilizes the pad height to limit compression.

- Balanced construction for lighter feel and quick response

- Plus one inch sizing with tall thigh rise for added coverage
- Low drag inner edge design for faster on ice movement
- Lighter weight for quicker movement
- Ultra high density outside roll foam to prevent puck skip over
- Flex-Pac internal padding
- Mex-Pac internal padding
- Wedge style vertical outside rolls
- Wide square shape provides increased net coverage
- Rebound control design provides for increased puck control
- Available in sizes 32"+1", 33"+1", 34"+1", 35"+1", 36"+1", 37"+1", 38" and custom sizes

## VPG 7700 VELOCITY LIMITED EDITION

The Velocity 7700 goal pad is a special series leg pad that has a limited edition graphic and incorporates several popular Pro modifications into the design and construction. The 7700 model pad has a narrower side profile from the knee up. This opens up the pad to give a roomier knee section and reduces weight. The more open section on the back side of the pad opens up more room for goaltenders using large knee/thigh guards or larger or longer pants. A new solid one piece top outside roll stiffens the top thigh section of the pad above the knee rolls and gives a more solid blocking surface. Narrow outside panel design reduces weight and gives the pad

improved lateral balance. Special two piece inner knee cradle features a layered design that helps secure the knee without having to over tighten straps. Internal core of HD layered foam provide pad stability and strength and firm up the pad edges for more effective puck blocking. Wide inside pad edge and balance stabilizer provide added stability while on the ice.

- Large profile outside rolls with solid top roll
- Inner edge balance stabilizer
- Light weight
- Limited edition graphics
- Narrow side profile reduces weight and improves pad balance

- Flex-Pac internal stuffing for rebound control and controlled break-in
- High density foam molded light weight thigh guard with lace adjustment
- Internal High density multi layered internal core
- Knee cradle with double layered adjustment strap
- Square inside pad edge for stability while on ice
- Large extended length thigh area for five-hole coverage
- Standard with plus one inch sizing
- Available in 32"+1", 33"+1", 34"+1", 35"+1", 36"+1", 37"+1", 38" and custom sizes

## YPG 7450 VELOCITY

The new 7450 Velocity 4 series leg pad features a new lighter weight construction and new design features for improved performance. New internal core provides lighter weight and adds stability to the pad structure. Wide inside pad edge provides increased pad control and balance while on the ice for faster more controlled movement. Tall plus one sizing with taller length thigh surface provides superior five-hole coverage. Tapered outer panel design provides lighter weight and gives the pad improved lateral balance for increased pad control and performance. New pro style wider knee cradle allows for faster pad rotation to allow for quicker pad movement while down on the ice. Adjustable knee lifters keep the knee elevated from the ice surface to reduce knee impacts and stress when impacting the ice and allows for easier leg extension. The inner edge balance stabilizer ensures proper pad placement while on the ice to give the pad added stability and a tight seal along the ice surface and squares the pad for increased net coverage. New pro style thigh guards provide increased flexibility and contour and follow the leg for increased protection. All new Velocity 4 tribal style graphics give the pad a larger visual appearance.

- New Velocity style and construction
- Full leg cradle for pad control
- Knee cradle with internal knee lifters for improved leg extension
- Flex-Pac internal stuffing for low rebounds
- Internal multi layered High density foam core
- Tall thigh rise with plus one inch sizing
- Pro style thigh guards
- Lighter weight
- High density outside rolls for more solid puck deflection
- Inner edge balance stabilizer
- Available in sizes 32"+1", 34"+1", 36"+1", 37"+1"

## VPG 7407 VELOCITY LIMITED EDITION

The Velocity 7407 limited edition goal pad features our tall plus one sizing with longer thigh rise area to provide improved five-hole coverage. New solid top outside roll stiffens the construction in the top thigh area of the pad for more solid blocking surface. Special high density molded thigh guard for added protection, lighter weight the design increased flexibility and follow the movement and contours of the leg for more complete coverage. The pad features a wide flat inner edge to provide excellent pad stability while down on the ice and uses a high density foam on the inner edge to prevent hard shots from pushing past the five-hole and to give a tighter seal while down on the ice surface. Wide leg channel aids in pad rotation while keeping the pad under control so the pad can be moved into position faster and quicker and allow more precise positioning for greater net coverage.

- Taller plus one inch sizing
- Pro style adjustable knee cradle
- Solid top outside roll design
- Flex-Pac internal padding for rebound control
- Molded thigh guard
- Adjustable knee lifters
- Inner edge balance stabilizer
- Limited edition graphics
- Full leg cradle for pad control
- Available in sizes
- 32"+1", 34"+1", 36"+1", 37"+1"

## VPG 8606 EPIC

The 8606 Epic goal pad features flat front design with internal layering of a softer foam behind the front surface to reduce rebounding and to provide added puck control. The Epic design features a narrower side profile design and construction. A knee hugger pre curved upper section that keeps the pad positioned closer to the knees for added control and functions to position the top thigh area of the pad to reduce openings in the five-hole area while going down to the ice. Standard iceberg graphics constructed with an exterior

Clarino micro fiber synthetic for increased durability and superior performance. Large square shaped outside roll prevents puck skip over and the square frontal shape increased the overall blocking surface to give maximum net coverage. Full pro style knee cradle design with knee lifters provides superior performance and full leg cradle design provides pad rotation control and adds stability and balance while on the ice.

- Balanced design for lighter feel and quick response

- Rebound control design and construction
- Flat frontal area for maximum blocking surface
- Knee hugger design for quicker five-hole coverage
- Narrow side panel design for lighter weight
- Iceberg graphics
- Clarino micro fiber exterior for durability and enhanced performance
- Full knee and leg cradle for pad control
- Available in sizes 30"+1", 32"+1", 34"+1", 36"+1"

## VPG 7360 VELOCITY 4 INTERMEDIATE

The new 7360 Velocity 4 goal pad is our intermediate size of our pro model 7600. The pad is specifically proportioned for a precise fit and is designed and constructed to match all the features as our pro model to meet the needs of the extremely high caliber young adult goaltender. All new design increases performance by allowing for more dynamic and aggressive movement while still maintaining full body control and balance. The inner knee area is identical to our pro model to provide the added protection, balance and control. Pad width is optimized at 10.75 inches to allow for maximum blocking surface without causing unneeded bulk or weight. Dual knee strapping system allows for wider range of adjustment with a full pro style knee cradle and adjustment straps. The wide leg channel provides excellent pad rotation for quick response and improved pad positioning to amplify net coverage.

- Specifically designed and sized for optimal performance
- Intermediate width of 10.75 inches
- New Velocity 4 tribal graphics
- Flex-Pac internal padding for rebound control
- Pro thigh board for maximum protection
- High density outer roll foams
- Full pro knee cradle and knee lifters
- Inner edge balance stabilizer
- Available in sizes 29"+1", 30"+1", 31"+1"

# GOAL PADS

## VPG 7250 VELOCITY 4 JUNIOR

The new 7250 goal pad features an extreme light weight design with proportional balanced construction to give added pad control along with faster more controlled leg movement. The 7250 pad features extended plus one sizing with taller thigh area to increase five-hole coverage. Wider profile inner leg five-hole rolls give a flat inner edge that gives the pad great stability while down on the ice. This also provides superior body balance to allow for quicker movement. Deep knee cradle design gives added pad control and secures the knee properly for added comfort and protection. All new Velocity 4 graphics aids the goaltender by making the pads visually appear larger.

- Full knee and leg cradle provide excellent pad control
- New pro style thigh guard for increased performance
- Inner edge balance stabilizer
- High density outside roll for firmer pad edge
- Wide leg channel for quick pad rotation
- All stitched graphics
- Durable Clarino micro fiber exterior
- Flex-Pac internal stuffing allows for less rebounds and quick break-in
- Available in sizes 26"+1", 28"+1", 30"+1"

## VPG 7207 VELOCITY LIMITED EDITION

The new 7207 Velocity junior goal pad features pro style plus one sizing with a longer thigh rise to maximize five-hole coverage while down on the ice. Inner edge of the pad features a full balance stabilizer and landing pad to position the pad on the inside edge to present the largest surface area for greater net coverage. Segmented outside vertical rolls allow for flexibility and keeps the thigh portion of the pad providing knee and five-hole coverage. Full knee cradle and knee lifter to position the knee off the ice to allow for maximum leg extension while reducing stress on the knee and hip. New limited edition graphics for a unique look. Full micro fiber Clarino exterior for light weight durability.

- Plus one inch tall thigh rises on all sizes
- Flex-Pac internal foam padding
- Full knee cradle with double elastic strap
- Curved thigh board
- Balance stabilizer on inside edge
- New limited edition graphics
- Available in sizes 26"+1", 28"+1", 30"+1"

## VPG 8404 EPIC

Our 8404 Epic junior leg pad features a light weight design with careful attention to the overall weight distribution to achieve a well balanced pad to allow for quicker movement. Flat front design with softer foam next to the exterior surface reduces rebounding and gives greater puck control. The exterior of the pad is constructed of a high grade Clarino micro fiber synthetic for enhanced performance and durability. Full length leg and knee cradles feature adjustable knee and leg lifters that allow precise adjustment of the leg height off the ice when going down on the inner edge of the pad. Narrow side panels reduce weight and increase flexibility for quick break-in and reduce drag on the inner edge of the pad to provide for faster pad slide and movement along the ice.

- Balanced design increase performance level and pad control
- Flex-Pac internal padding for flexibility
- Low rebound front face construction
- Narrow side panels
- Full knee and leg cradle
- Iceberg standard graphics
- Clarino high performance synthetic exterior
- Plus one sizing with tall thigh rise
- Available in sizes 23"+1", 25"+1", 27"+1", 29"+1"

## VPG 7150 VELOCITY 4

All new for 2010 the 7150 leg pad is an all new design and performance level for the smaller junior sized goaltender. Very light weight gives smaller goaltenders a better strength to equipment weight ratio for quicker movement and the design incorporates added flexibility for easy break-in. Full pro style outside rolls help add to the blocking surface to maximize net coverage. Full knee and leg cradle provide pad control and allow pad to rotate while going down to the ice surface to give five-hole coverage. Molded thigh protector designed to follow the leg for increased protection and to help fill in gaps in the five-hole area coverage.

- Full Velocity 4 graphics and styling
- Adjustable knee cradle with elastic straps
- Full leg cradle for pad control
- Easy break-in design
- Light weight
- Full pro style outside roll construction
- Full inner leg protection
- Available in sizes 22"+1", 24"+1", 26"+1"

## VPG 7100 VELOCITY

High performance youth leg pads, the Velocity 7100 for 2010 features a full flat front construction to maximize net coverage and shaped knee rolls to provide flexibility. Flat inner edge of pad allow for proper pad positioning while on the ice to allow for stability and balance to give the goaltender more agility and control. Each size is proportionally designed for optimal fit of all sizes so all flex points are in the correct location to enhance performance.

- New Velocity 4 graphics
- Inside edge knee, ankle and calf protection
- Padded knee cradle with adjustable straps
- Available in sizes 20+1", 22+1", 24+1", 26+1"

# ARM AND CHEST

White/Navy/Orange

## VP 7600 VELOCITY 4

The new 7600 model Velocity 4 arm and chest protector for 2010 follows in the tradition of innovation and quality with many new design features to achieve the highest level of performance and protection possible. New even lighter weight speeds upper body movements and improves the fit for extreme flexibility. New larger shoulder floaters are constructed with superior protection and increased rigidity for greater blocking surface and protection. The chest pad is constructed with three layers to allow complete flexibility and increased protection by creating superior protection with impact reduction. Lower chest pad belly flap allows the unit to stay positioned while in a deep crouched position. The shoulder and back pad adjustment system allows the unit to be more balanced with even weight distribution over the shoulders and allows for a custom fit. Large shoulder caps with lower extensions fill in gaps around the arm pit area. Adjustable side chest pad wings give adjustable coverage in the upper side rib cage. Anatomically designed arms prevent padding from shifting away from critical areas of the arm and new wider bicep caps add even greater protection. Large high density reinforced main arm floaters provide a firm blocking surface and aid in puck deflection.

- Pro spec construction for added protection and durability
- Multi section chest protector with flex panel on lower belly area
- Lighter weight for quicker movement
- Tapered fore arm caps for improved glove interaction
- Four point adjustable elbow pads
- Available in two colors
- Available in sizes XS, SM, MED, LG, XLG

# ARM AND CHEST

Black/Silver

## VP 8800 EPIC

The new VP 8800 EPIC arm and chest protector has been redesigned for 2010 with many new features and Pro spec construction to achieve an elevated level of performance and protection. The unit is designed to work with the natural movements of the body utilizing Bio-Flex engineering that adds flexibility but keeps the protection focused in the critical areas of impact. New larger shoulder floaters increase net coverage and increase protection by 30% utilizing new multi layered HD inserts that strengthen the surface area for increased blocking and deflecting ability. All new main arm floaters feature a no gap design that adds protection from all angles and creates a more solid blocking surface. The top portion of the floater is angled to eliminate gaps at the upper arm and increases surface area. New wider bicep padding envelops the outer

area of the arm for more complete coverage and features 30% thicker foam padding for greater impact resistance. Multi-piece chest protector allows the unit to flex and follow lower body movements so the unit stays in place while in a crouched position. New larger sternum protection creates a larger surface area for improved shock dispersal and new inner blocks in the base of the chest pad hold the unit more stable in the chest region for improved impact resistance and creates a firmer surface to support the shoulder floaters for added rigidity for puck blocking. Unique design and construction supports the weight of the unit on the shoulders and functions to balance the weight of the unit over the body core for a lighter feel and precise custom fit. The arms are constructed with an aero spacer dimensional mesh material for ventilation and extreme flexibility. This also provides added

cooling and faster than ever break-in.

- New increased protection with Pro spec construction
- New lighter weight and faster break-in
- New larger and thicker shoulder floaters
- New main arm floaters with increased coverage
- Light weight aero spacer mesh arms
- Multi-flex chest pad design
- New thicker sternum plate
- Four point adjustable elbow pads
- Adjustable wrist straps
- Tapered forearm padding
- High density spine protector
- New Military spec two color buckles for durability
- Cushioned chest pad back for comfort and added shock dispersal
- Available in two colors
- Available in sizes XS, SM, MED, LG, XLG

# ARM AND CHEST

## VP 7450 VELOCITY 4

The Velocity 7450 arm and chest protector design features anatomically designed chest protector with angled blocks and a lower belly flex section to align all the flex points of the chest pad to the natural movements of the body. New larger pro style shoulder floaters give added net coverage and increased protection. New style arms feature true pro construction with wider bicep cap protection and new more protective main arm floaters with High density internal construction. Full arm straps and four point adjustable elbow pads allow for precise fit to optimize performance. Large reinforced sternum plate with increased thickness adds extra protection in the critical chest area. Back padding features multiple adjustments with high density spine protection and military spec side release buckles for added durability.

- New wider bicep protection
- Adjustable wrist strap
- Molded tapered forearm pad
- High density extra thick shoulder floaters
- Lower belly flex pad
- Large plastic reinforced chest sternum plate
- Large main arm floaters
- Extended should cap design
- Available in sizes XS, SM, MED, LG, XLG

## VP 8606 EPIC

The new Epic 8606 arm and chest protector is designed to work with the natural movements of the body to optimize the flexibility while providing superior protection. New larger shoulder floaters and sternum chest plate create more blocking surface giving greater net coverage and increase protection. New arm design provides added protection and makes the arms more stable to more effectively hold the padding into position for improved protection and increased effectiveness blocking pucks. The chest pad features lower flex panels to allow for a deep crouched position and aid in flexibility. Internal lining of the arms and chest prevents water build up to prevent weight gain. Large shoulder caps and shoulder cap extensions add shoulder width and protection. Tapered forearm padding with wrist straps give added stability and allows the protection to taper into the gloves for overlapping protection.

- Fully molded arm and shoulder caps to maximize protection
- Large arm floaters with High density construction
- Adjustable wrist and arm straps
- Four point adjustable elbow pads for precise fit
- New large shoulder floaters and sternum plate
- New nylon internal lining for water resistance
- Extra flex design chest pad
- Adjustable back padding
- Side chest pad extensions
- Available in sizes SM, MED, LG, XLG

# ARM AND CHEST

## VP 7360 VELOCITY 4 INTERMEDIATE

The 7360 Velocity 4 arm and chest protector features special intermediate sizing that is enhanced in design to fit the young adult goaltender that needs maximum protection and performance but does not have the body size or weight to fit in the full adult models. The protection and material selection are scaled from our pro models and optimized precisely to achieve the perfect blend of protection and mobility. New large shoulder floaters ensure maximum net coverage with larger surface area and add protection. Wide arm floaters feature the same thickness and materials as our pro models to maximize blocking strength and are carefully sized to optimize performance. Full adjustable back and shoulder adjustment allows for precise adjustment and functions to better support the weight and balance of the unit to the upper body so all the padding remains in proper orientation for maximum performance.

- New larger shoulder floaters with Pro High density construction
- Flex pad on lower chest pad
- Intermediate sizing for proper fitting
- Full pro thickness over chest area
- Large mid arm floaters
- Adjustable wrist straps and arm straps for precise fit
- Available in sizes MED, LG, XLG, and XXLG

## VP 7250 VELOCITY JUNIOR

The new 7250 junior arm and chest protector features our anatomically designed body pad with angled protective blocks and lower belly flap all arranged to align the flex points of the chest pad to match body movement. New large pro style shoulder floaters with high density foam construction increase shoulder protection and add blocking surface. The arm padding is molded and tapered at the forearm for proper fitting and tapers into the glove cuffs. Adjustable arm and wrist straps allow for a large adjustment range for precise fitting. Nylon lined interior of the chest and arms prevents water weight gain.

- Light weight design and construction
- Full back spine protector
- Large shoulder protection
- Adjustable elbow pads
- Flex pad at belly
- Anatomically designed chest pad with cushion padding
- Molded bicep, forearm caps and shoulder caps
- Available in sizes SM, MED, LG, and XLG

# ARM AND CHEST

## VP 8404 EPIC JUNIOR

The new VP 8404 junior arm and chest protector features a flexible design to provide easy break-in and to optimize range of motion. New style large pro shaped shoulder floaters provide extra protection and a larger blocking surface. Nylon lining on all interior surfaces provides added comfort and prevents water build up and facilitates quick drying. The chest pad features lower flex panels to allow for a deep crouched position and the design helps keep the chest pad stationary to ensure maximum coverage. Large molded shoulder and arm caps provide added impact resistance and a large chest sternum plate further increases protection.

- New larger shoulder floaters
- Four point adjustable elbow pads
- Nylon water resistant internal lining
- Adjustable wrist and arm straps for precise fit
- Adjustable back spine protector
- Cushion padding on internal chest area
- Large sternum plate with plastic reinforcement
- Molded shoulder and arm caps
- Available in sizes SM, MED, LG

NIKLAS BACKSTROM

## VP 7100 VELOCITY YOUTH

The 7100 youth sized Velocity arm and chest protector unit features large shoulder area to protect the vulnerable collar bone and shoulder area. Large plastic reinforced sternum plate adds protection in critical impact areas. Fully molded plastic components in the arms, shoulders and elbows along with a padded back spine protector provide added impact resistance. Wide cut easy-flex arms with adjustable wrist strap for a secure fit. Nylon exterior covering material for added durability and limits water absorption to keep unit light weight.

- Pre-shaped design for comfort and easy-break-in
- Wrap around style chest pad to increase coverage
- Cushioned inner chest pad lining
- Back spine padding
- Quick dry internal mesh lining
- Available in Youth sizes SM/MED and MED/LG

# CATCH GLOVES

## T 7600 VELOCITY 4

The T 7600 Velocity 4 catch glove is designed with the widest possible palm area to allow for the maximum amount of catch surface. This dimensionally deeper shape creates more volume in the palm and pocket for improved catching and puck retention for maximum performance. The top thumb and cuff area features a molded in deflecting ramp that is engineered to limit pucks from skipping over the top edge of the glove. The internal hand features mesh finger construction to aid in quicker drying and to reduce heat build up in the hand. The back of the fingers features an adjustable retention strap across the lower knuckle area to provide added hand control this provides a precise fit and secures the hand to the glove and limits twisting from high impact shots near the glove perimeter. Internal thumb tunnel design with adjustable loop that allows the thumb angle tightness to be adjusted this provides more closing power for quicker reaction. Wide back cuff opening allows for added wrist room and facilitates improved hand position to help keep the glove more square to the shooter to increase net coverage. The back hand padding features three piece construction that allows flexibility and incorporates HD foam over the back of the fingers for slash protection and includes a finger tip deflecting ramp to further protect the finger tip area. The back pad can be fully opened for easy access to the adjustment straps and to facilitate quick drying. Large Dual bar T-web with reinforced top bar provides increased pocket depth and functions to reduce puck spin for puck retention.

- All new Velocity 4 graphics
- Side thumb and cuff deflecting ramp
- Three piece back hand protection
- Pre spec construction for added protection and durability
- Heat moldable for custom fit
- Internal hand control straps
- Full flex seams in palm and internal padding for quick precise break-in
- Full access opening back hand protection
- Thumb tunnel design for more closing power
- No binding cuff for more effective blocking area
- Reinforced perimeter edge and added palm protection

THESE AND MANY OTHER COLORS AVAILABLE

## T 7680 VELOCITY 4

The New Velocity 7680 catch glove is a new special edition version of our standard 7600 catch glove with additional features. New solid molded cuff and thumb are integrated together to create a more solid frontal impact area to provide additional protection and increased rigidity to the cuff area. The catching surface shape and closure of the glove is identical to the 7600 so it maintains the exact same comfortable high performance feel.

- New solid cuff and thumb construction
- More solid molded components for added rigidity in the wrist area
- Full pro spec construction

# CATCH GLOVES

## T 8800 EPIC CATCH GLOVE

The T 8800 catch glove features advanced anatomical design to give superior control and balance. The glove features an internal Neoprene glove with adjustment strapping that provides for custom hand adjustment and alignment that results in superior control and makes the glove feel more of a natural extension to the hand for more precise and quicker movement. Thumb tunnel design provides additional closing power along with added protection to the thumb. Extra wide glove face design allows the glove to be opened wider to achieve greater net coverage and a large T-web pocket with deep lace construction for puck control and retention. Internal pro specification padding increases protection and provides added perimeter stability with added reinforcing layer. Select materials allow the glove to be custom heat fitted to the individuals hand for the ultimate fit and rapid break-in. Wider notch heel area of the glove allows added room for stick placement while stick handling or shooting. Two piece back hand padding provides added glove flexibility and provide high density slash protection over the back of the fingers along with a finger tip deflector bar to provide even further more complete finger protection. Wide cuff opening added wrist mobility and flared cuff box for arm padding to over lay into the cuff area without interference.

- Neoprene inner glove for added control
- Molded high density cuff box construction
- Pro spec construction
- No binding cuff for more effective blocking surface
- Large width thumb tunnel for control
- Select material for heat forming
- Dual hand straps for adjustment
- Reinforced perimeter edge for stiffness
- Large T-web angled to provide complete puck coverage on the ice
- Large depth T-web for puck retention
- Finger tip deflector ramp

## T 8880 EPIC CATCH GLOVE

The new Epic T 8880 model catch glove is a new special edition version of our standard 8800 catch glove with new additional features. New solid cuff and thumb are integrated together to create a more solid frontal impact area to provide additional protection and increase rigidity to the cuff area. The glove shape function and closure all keep the same optimal performance.

- New one piece molded cuff and thumb protection
- More solid components for added ridged wrist area
- Full Pro spec construction
- True Epic performance and closure

# CATCH GLOVES

## T 7700 VELOCITY LIMITED EDITION

The T 7700 limited edition Velocity catch glove is designed with a deep contoured catching surface to give more depth to the glove and pocket for puck retention. Large wide thumb mold profile uses a flatter blocking surface that also functions to provide added impact dispersal steep angle thumb design is shaped to deflect pucks into the catch surface. Pre-shaped design with a mechanical hinge closure provides precise positive break-in. Pro spec construction adds additional reinforcement on the outer perimeter of the fingers and increased palm protection. Wide

heel opening allows for added stick control while shooting or stick handling. Three piece back hand padding with finger tip deflector features Velcro adjustments straps and can be fully opened for quick drying. Dual internal wrist and hand straps provide a precise fit for added glove control. Mid curve high density cuff surface provides maximum blocking and protection. Wide opening at the back of the cuff gives added space for arm padding and provides increased wrist movement and access. Large double bar T-web pocket slows puck rotations to improve catching. Wide

perimeter provides a complete seal along the ice when covering pucks.

- Unique mechanical hinge closure for extremely fast break-in
- Pre-formed shape
- Wide surface area to maximize coverage
- Internal hand control straps
- Limited edition graphics
- Light weight and perimeter balanced
- Mid curve front cuff surface enlarges blocking surface
- Heat moldable for custom fit

## T 7450 VELOCITY

The new T 7450 Velocity catch glove features an innovative design with a large catching surface. The deeper shape creates more volume in the palm and pocket for improved catching and puck retention. The internal hand features mesh finger construction to aid in quicker drying and to reduce heat build up in the hand. An adjustable knuckle strap allows for a custom fit and added control. The internal back hand retention system also features an adjustable strap across the back of the hand. It secures the glove to the hand for greater control to limit glove twist when impacted at edges with hard shots. Our unique new thumb tunnel feature integrates added control into the thumb to give greater closing power and added glove control. Wide flared cuff allows for added wrist room and facilitates better hand positioning to keep the glove more square to the shooter to increase net coverage. The back hand features three piece construction with HD foam over the back of the fingers for slash protection. It has a finger tip deflecting ramp to further protect the finger tips from shots. The back pad can also be fully opened to facilitate quicker drying. Dual bar T-web limits puck spin for improved puck retention in the pocket.

- Unique thumb tunnel for added glove control
- Large catching surface with greater volume
- Full access opening back hand padding for protection that can be opened for easy drying
- Dual back hand control straps
- Heat moldable for custom fit
- Full flex seams in palm and internal padding for quick precise break-in
- No binding cuff design for added blocking area
- Flared molded front cuff for added puck deflecting and added wrist mobility

## T 7407 VELOCITY LIMITED EDITION

The T 7407 catch glove features a large catching surface with a deep dimensional shape to create added volume in the palm and pocket for improved catching and puck retention. Internal hand constructed with individual index and mid finger stalls for positive control with mesh covering for quick drying and reduced heat build up in the hand. Internal back hand and wrist straps provide for adjustability and added control for positive quick glove movement. Unique thumb tunnel design provides added control into the thumb to maximize power transfer for quicker closing. Wide cuff opening with flared cuff allows for added room and facilitates quicker wrist rotation and improved glove positioning. The back hand padding is constructed with a three piece design for flexibility, features a high density finger tip deflector pad and can be fully opened to provide for quicker drying. Dual bar T-web limits puck spin for improved puck retention in the pocket.

- Thumb tunnel design for more positive glove control
- Large catch surface to maximize blocking area
- Dual internal hand straps
- Heat moldable for custom fit
- No binding cuff creates larger surface area
- Full back hand protection
- Limited edition graphics

## T 8606 EPIC

The T 8606 catch glove uses a micro fiber synthetic covering in the glove body and pocket to enhance performance and durability. Full sewn in iceberg limited edition graphics provide a unique custom look. Internal Neoprene glove with adjustment straps provide a custom hand adjustment, which results in superior glove control and quick precise movements. New vented mesh internal finger stalls for quick drying provides ventilation for heat reduction. Notched lower thumb and heel area for stick placement while shooting or stick handling. Dual internal hand straps are adjustable for precise control and comfort. Heat moldable to allow for a custom fit and quicker break-in.

- Neoprene inner hand for added control
- Molded front deflecting cuff
- Large wrist area for added mobility
- Select materials to allow for custom heat forming
- Two piece external back hand protection with finger tip guard
- Iceberg graphics

## T 7360 VELOCITY 4 INTERMEDIATE

The T 7360 Velocity 4 catch glove is our intermediate sized version of our pro model. The T 7360 features an innovative design with a large catching surface with a dimensionally deeper shape to create more volume in the palm and pocket for improved catching and puck retention. The top thumb area and cuff are aligned and feature a molded in deflecting ramp engineered to limit pucks from skipping over the top edge of the glove. Internal hand features finger stalls constructed of a dimensional mesh material for added ventilation and quick drying and an internal hand strap across the lower knuckle area provides additional adjustment and added hand control. Thumb tunnel design provides added thumb support allows the goaltender to adjust internal thumb position and transfers more power and control into the glove for quicker closing. Wide flared cuff allows for added wrist room and facilitates better hand positioning to keep the glove more square to the shooter to increase effective net coverage. The back hand padding features three piece construction to add flexibility to the glove and provides seamless protection over the back area of the hand for slash protection and has an integral finger tip deflecting bar to further increase protection. Dual bar T-web limits puck spin for good puck retention and reinforced top T-web bar is positioned to give full even coverage when covering pucks on the ice.

- Large catch surface
- Unique sizing for goaltenders that need full adult protection but have a smaller hand
- Dual back hand control straps
- Flared cuff with no binding for more effective blocking
- Reinforced finger perimeter and added palm protection
- Thumb tunnel design
- Heat moldable for custom fit
- Straight top edge with deflecting ramp

## T 7250 VELOCITY JUNIOR

The new T 7250 Velocity junior catch glove features a large catching surface with a deeper shape to create more volume in the palm and pocket for improved catching and puck retention. The internal hand features mesh finger construction to aid in quicker drying and reduce heat build up in the hand along with an adjustable knuckle strap for custom fit and added control. The internal back hand retention system also features an adjustable strap across the back of the hand to secure the glove to the hand for greater control and to limit glove twist when impacted at edges with hard shots. Our unique new thumb tunnel feature integrates added control into the thumb to give greater closing power and added glove control. Wide flared cuff allows for added wrist room and facilitates better hand positioning to keep the glove more square to the shooter to increase net coverage. The back hand features three piece construction with HD foam over the back of the fingers for slash protection and has a finger tip deflecting ramp to further protect the finger tips from shots. The back hand padding can also be fully opened to facilitate quicker drying. Deep design dual bar T-web limits puck spin for improved puck retention in the pocket.

- Unique thumb tunnel for added glove control
- Large catching surface with greater volume
- Full access opening back hand padding for protection that can be opened for easy drying
- Dual back hand control straps
- Heat moldable for custom fit
- Full flex seams in palm and internal padding for quick precise break-in
- No binding cuff design for added blocking area
- Flared molded front cuff for added puck deflecting and added wrist mobility

## T 7207 VELOCITY LIMITED EDITION

The junior size catch glove features a large catch surface with a deeper designed shape to create more volume in the palm and pocket for puck retention. Designed to give full perimeter closure when covering the puck on the ice with no gaps along the edge. Internal hand features, mesh finger construction for ventilation along with an adjustable knuckle and finger strap to allow for a custom fit. The internal back hand also features back hand and wrist strap to secure the glove for control and to limit glove twisting from puck impacts at the edges from hard shots. Thumb tunnel system provides power transfer to speed glove closure for improved catching performance. Three piece back hand protection can be fully opened to speed drying times. New limited edition Velocity graphics and micro fiber Clarino synthetic materials for light weight durability.

- Easy break-in
- Curved molded deflecting cuff
- Dual hand strap adjustment points
- Heat moldable for custom fit
- No-binding cuff for added blocking surface
- Full three piece back hand protection
- Large catch surface with deep pocket

## T 8404 EPIC

The Epic 8404 catch glove uses a Clarino micro fiber exterior front and pocket to enhance performance, durability and reduce weight. New limited edition iceberg graphics are fully stitched for added durability. Extra wide glove face design provides added net coverage and large T-web pocket for improved puck control. Select materials allow the glove to be heat molded for a custom fit and quicker break-in.

- Inner glove hand design for added control
- Molded front and back thumb for protection
- Molded front flared cuff
- No-binding cuff for added blocking surface
- Heat moldable
- Iceberg graphics

## T 7150 VELOCITY

All new model for 2010 the 7150 catch glove is a new size and protection level to fit the higher caliber small youth goaltender. Designed and constructed to allow for easy break-in and quick closure, deep T-web pocket assists in easy catching and allows for a nice full open hand position to create a larger surface area. Internal hand straps and wrist strap increase glove control and provide adjustment. Molded components in the thumb and palm areas increase protection and add stability to the glove while catching harder shots.

- Large deep T-web with reinforced top bar
- Internal wrist strap
- Molded thumb and palm protection
- Hand laced construction
- Back hand padding with finger tip protection

## T 7100 VELOCITY YOUTH

The T 7100 catch glove is designed and constructed to allow for quick and easy closing which allows young goaltenders to better control the puck while catching. Internal padding with soft sting guard layering and molded plastic in the palm and thumb for added protection. Internal wrist strap provides added control and security for improved glove control. External padding covers the back of the hand for added slash protection while covering pucks along the ice.

- Large deep T-web design
- Molded thumb and palm protection
- Internal wrist strap system

## B 7600 VELOCITY 4 BLOCKER

The new Velocity 4 blocker has been optimized for lighter weight and each component has been carefully engineered to achieve precise balance to provide for enhanced glove control and feel. The front board section is designed with the board having a slight forward tilt this helps to square the blocking surface more to the shooter to give greater net coverage. The board edges are beveled to reduce perimeter weight. This not only reduces overall weight but functions to bring the center of balance directly over the back of the hand giving even greater glove control. The bottom edge bevel and design allows the board to fully contact the ice surface while in a paddle down stick position and prevent excess wear. Large side hand protection features high density foam protection and plastic reinforcement for a solid protection and blocking surface, the side wrist area is also further protected by an air cushion pad to reduce impacts to the side of the hand. Ergonomically designed palm is designed with its own unique pre curved positioned to allow for easy stick grip and to keep a smoother surface to provide a more precise stick control. Side vented palm gussets allow for air circulation for heat dispersal and easy of flexibility. All new finger protector design provides multi layered protection over the side index finger for superior impact resistance with high density foam and plastic inserts. Full pro-spec design and construction adds protection and durability.

- New finger protection for superior performance
- Reinforced side hand protection
- Anatomically designed palm with gusset ventilation
- Tapered bottom board
- Articulating cuff for added wrist movement and flex
- Air cushion back hand
- Adjustable wrist strap
- Light weight balanced design with beveled edges
- Tilted forward board design for enhanced net coverage

## B 8800 EPIC BLOCKER

The B 8800 Epic pro blocker features a large flat profile side thumb shield that provides extra protection and added blocking surface to the inner edge and side of the glove. The blocking surface features a larger upper board flare for puck deflection on high shots to reduce puck skip over. Beveled edges on the back side of the blocking board reduces weight along the outer edges and improves the balance and feel of the glove. No binding construction on the blocking surface provides added rigidity to the outer perimeter for more effective blocking surface. The bottom of the board is tapered to allow easy transition to the ice during paddle down moves. All new finger protection with multi layered protection over the side index finger for superior impact resistance with high density foams and plastic inserts

that provide added coverage. Full pro-spec construction adds protection and durability.

- Air cushion padding on back hand
- High density internal blocking board for light weight
- Full pro-spec construction
- Reduced perimeter weight for balance and control
- Adjustable wrist strap
- New superior finger protection
- New ergonomically designed palm with mesh gusset construction
- No binding design for more effective blocking surface
- Large top flare

## B 7700 VELOCITY LIMITED EDITION BLOCKER

The B 7700 limited edition blocker features a no binding front construction to enhance the blocking area with a firmer outer edge perimeter. The blocking board is designed with a tilt forward to provide an enhanced angle to provide more net coverage. The board features beveled edges to reduce weight around the perimeter and brings the center of balance directly over the back of the hand this also give the goaltender added control and limits board twisting when pucks impact the outer edges improving blocking performance. The bottom board bevel allows for a quick paddle down movement to the ice and creates a tight seal allowing no gaps for complete protection. Large side hand shield with high density foam

protection and plastic reinforcement for a solid protection and blocking surface. The side wrist area is further protected by an air cushion pad to reduce impact forces on the side of the hand and to keep the blocking surface square. Ergonomically designed palm is designed with each finger having its own unique curve for superior stick grip and control. The palm features vented side gusset construction for heat dispersal and quick drying and a padded palm area to reduce vibrations from stick impacts. New finger protection provides multi layered protection over the side index finger for superior impact resistance the design provides complete side coverage with no gaps for more complete coverage and protection. Full pro-

spec design and construction gives enhanced protection and adds durability.

- New superior finger protection
- Pro Spec construction
- Tilt forward board design
- Cushion padded back hand
- Adjustable wrist strap
- Light weight perimeter balanced design
- Reinforced side hand shield
- Articulating cuff for enhanced wrist movement
- Tapered bottom board
- Limited edition graphics
- No binding construction front blocking board

# BLOCKERS

## B 7450 VELOCITY

The Velocity 7450 blocker has been optimized to present a larger blocking surface by keeping the board positioned more square to the puck position on the ice. This is done by rotating the hand position at the wrist area to tilt the board forward at the wrist attachment point. This gives the glove a better blocking angle to the puck with our face forward design. Beveled board edges on all sides reduces weight and moves the center of balance directly over the back of the hand for improved glove control and balance. The bottom taper improves the glove positioning during paddle down moves to the ice. Large side hand protection with puck deflector rail provides added net coverage and protection. Articulating finger protection and large side index finger protector gives excellent stick grip for added control and protection. Reinforced palm with vented side gussets to dissipate heat and facilitate quicker drying.

- Large side plate with deflector rail
- Tilted face forward board design for added blocking ability
- Light weight balanced design with beveled edges to reduce weight
- Reinforced thumb protection
- Air cushion protection on back of hand
- Tapered bottom board
- Articulating cuff design
- Vented palm construction for heat dispersal
- Adjustable wrist strap for added glove control

## B 7407 VELOCITY LIMITED EDITION

The B 7407 blocker is designed to tilt the board face forward to present an improved blocking position this maximizes the blocking surface. Beveled board edges, reduces weight and improves balance by reducing perimeter weight. Tapered bottom edge improves glove positioning while making paddle down moves on the ice surface. Large side hand impact shield with puck deflector rail provides increased protection and gives added net coverage. Articulating finger protection and large side index finger protector are designed to allow for excellent stick grip for added control. Reinforced palm with vented side gussets to dissipate heat and for quick drying.

- Large side plate with deflector rail
- Tilted face forward design
- Beveled edges for improved balance and lighter weight
- Articulating cuff
- Tapered bottom board
- Air cushion padding on back of hand

## B 7360 VELOCITY 4 INTERMEDIATE BLOCKER

The new Velocity 4 intermediate sized blocker is designed to provide the ultimate performance and protection to the high level goaltender that require a glove just slightly smaller than the adult version. The 7360 design is optimized for lighter weight. Each component has been carefully engineered to achieve precise balance to provide enhanced glove control and feel. The front board is designed with the tilt forward design to maximize blocking area. The board edges have a beveled shape to reduce outer perimeter weight this moves the balance point directly over the back of the hand for superior glove control and feel. Large side protection shield with high density foam construction for complete side impact coverage. New finger protection design with multi layered protection over the side index finger for superior impact resistance and more complete finger coverage. Reinforced palm with added padding limits stick vibration from hard shots and has vented side gussets to dissipate heat and facilitates quicker drying and reduced heat build up.

- Articulating flex cuff for enhanced wrist movement
- Tapered bottom board
- Adjustable wrist strap
- Reinforced side hand protection
- Cushioned back hand padding
- Vented palm for heat dispersal
- Large side shield
- New superior finger protection design

# GOAL MASKS

## VM 8800

The VM 8800 goal mask is constructed with a carbon fiber and fiberglass woven glass shell for lighter weight and added strength. The shell is high pressure molded and heat set to provide complete uniformity to the shell thickness to control glass saturation giving consistent strength and weight. Contoured design reduces flat spots to dissipate impacts and provide maximum protection and shell rigidity. The chin and jaw line are a low profile design with a flared bottom edge to allow the unit to tuck into the chest area tighter for added protection and allow additional adjustment to the internal chin cup. The mask shape is designed to provide optimum fit to give increased visibility with a wider field of view. Air holes and face opening are designed to provide maximum ventilation to reduce heat build up. Internal chin strap provides extra security and easy adjustment. Cage bars are positioned to obtain maximum visibility while in the crouched position and constructed of stainless steel for added durability. The low luster finish provides optimal visibility and reduces glare for lighting. Internal padding of vinyl foams allow for lightweight, comfort and protection.

- Available in standard colors: Black, White, Red, Navy
- Size: Adult STD

- Available in standard colors: Black, White, Red, Navy
- Size: Adult STD

## VM 8800 PC

The 8800 PC goal mask features the same design shell and internal construction as our 8800 model. The VM 8800 PC features a pro style cage with large eyehole openings for increased visibility. The center section of the cage features double bars for added strength.

- Available in standard colors: Black, White, Red, Navy
- Size: Adult STD

MB 8800

Non-certified masks may not be available in all areas due to government regulations.

# GOAL MASKS

## VM 7700 GOAL MASK

The 7700 goal mask is an all new design specifically engineered to provide increased performance with greater visibility and sight lines. The shell shape has been carefully contoured and molded to reduced flat spots in the design to reduce impacts in critical areas and provide lighter weight and higher strength. The flared lower chin provides added rigidity and allows the goaltender to close off the area between the neck and chest for greater protection coverage. Full inner shell padding with no gaps in impact areas gives complete coverage and meets all new certification rules. Dual density vinyl nitrile padding provides exceptional protection, comfort and fit. The cage design has been optimized to provide true vision sight lines and positions the cage bars to achieve maximum forward and peripheral vision. Cages are all constructed from high grade stainless steel with a low luster finish to reduce glare and blend into the ice surface to increase visibility. The stainless steel will not rust and provides added durability to increase longevity. Full skull plate harness with heavy duty elastic straps and buckles provides complete adjustment; the chin cup features a quick change Velcro adjustment to allow the goaltender more options on fitting. Vent holes are positioned to facilitate rapid air ventilation and heat dispersal for cooler play.

- New shell design for improved performance and style
- Dual density internal lining
- Light weight
- Stainless steel cage and attachment hardware
- Pro style harness
- Narrow profile chin area
- Adjustable chin cup and low profile chin strap
- Chin cup with anti bacterial treatment
- Replaceable sweat band
- Mask comes with padded carry bag
- Standard colors: Black, Navy, Red, White
- Graphic decal and paint available
- Available with straight bar or certified cat eye cage style
- Fully HECC, CSA and CE certified

## VM 7500

The VM 7500 goal mask is designed and engineered to create optimal visibility. The recessed cage area moves the cage closer to the eyes which improves vision and gives wider sight lines. Anatomically designed for optimal fit and performance with raised mold lines that reduces flat spots for superior puck deflection to lessen impacts. High impact shell is constructed in special high strength Lexan material that is custom engineered for greater impact resistance. The shell is engineered with precisely located ridge lines that add strength and reduce shell flex under high impacts. The jaw area is profiled with a flared lower short chin to give superior downward visibility and allows the mask to be fitted closer to the face for improved visibility. The chin design allows the mask to be tucked in tight to the chest to provide more protection and allows for added adjustment to the chin cup for a more custom fit. Large air vent holes and face opening are designed to provide maximum ventilation to reduce heat build up. The cage is constructed entirely of low luster stainless steel for added durability and reduced glare for optimal visibility. High density pro style vinyl nitrile foam liner provides durability and is low water absorbing to provide light weight and comfort.

- Available in standard colors: White, Black, Red, Navy
- Adult sizes: SM, STD, XLG and Junior
- Available in graphics as shown

# GOAL PANTS

## P 7600 VELOCITY 4 GOAL PANT

The new Velocity 4 goal pant is designed to achieve a maximum amount of net coverage and still provide excellent flexibility and ease of movement. The 7600 goal pant uses new molded high density hip and thigh pads to reduce weight and increase protection. The new design and internal molded components improve the pant balance and fit for enhanced performance. Internal thigh cradle design has been designed to provide thigh pad stability and limits thigh pad twisting for greater puck stopping and deflecting. Large five-hole rolls with internal support padding give quick rapid closure to reduce any openings in the five-hole area between the thigh guards. Full length stretch crotch area and inner thigh area provide increased flexibility and ventilation. New design side groin pads square up the frontal area of the pant and add protection. Rear leg split in the shell keeps the thigh pads properly positioned while going down to the ice so the thigh pads achieve greater coverage above the knee area. Sport mesh internal lining provides light weight, comfort, durability and quick drying. Constructed with high tenacity nylon exterior for water resistance. The nylon surface allows the pant to move along the ice without grabbing to allow for quicker movement. Front area features an internal belly pad for added protection and a laced frontal area to provide adjustment. Wide profile design and contoured waistband provides added comfort and allows the chest pad to be worn inside or outside the pant.

- Thigh cradle technology for superior net coverage
- Lace up frontal area for adjustment
- Adjustable full diameter belt
- Rear leg split on pant shell
- Front side groin pads to square up blocking area
- Inner leg and crotch stretch for added flexibility
- Available in sizes: SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

Note: add 8-10 inches to actual waist size then match to appropriate pant size.

## P 8800 EPIC

The Epic goal pant is designed for a looser fit with large thigh guards that features a slight curve for increased protection and stability to prevent puck skip by on the thigh pad edges. High Density foam five-hole roll blocks provide for inner thigh protection. Wide front pant profile features HD foam inserts in the side groin that provides added flexibility and maximum protection. Contoured front waist and belly pad for easy movements in the crouched position. Large molded hip plastic and extended tail bone padding for extra protection. Rear leg splits prevents the pant thighs from being displaced while going down to the ice and allow the pant to keep the wide profile for maximum blocking in all positions.

- High density inner thigh five-hole rolls
- Side groin HD protection
- Front abdominal padding
- Lightweight with sport mesh internal lining
- Lace up front for added adjustment
- Adjustable belt
- Available in sizes: SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

NOTE: add 8 to 10 inches to actual waist size then match to sizing in parenthesis to find proper size; this model of goal pant is designed to be worn loose fitting.

# GOAL PANTS

## P 7450 VELOCITY

The 7450 Velocity goal pant is constructed and tailored specifically to work with the movements of a goaltender to give optimum performance and comfort. Wide thigh guards feature a slight curve and are designed to give maximum blocking surface and fill in the five-hole area when going down to the ice surface. Sport mesh lining for low water absorption and quick drying. Large side abdominal floating pads extend down to the side groin area for added protection and give the pant flexibility while in a crouched position. Front contoured waist gives a lower front profile for chest pad fit and easier bending while in a crouched position.

- Inner thigh HD blocks with internal support padding
- Adjustable belt with double front pull adjustment
- Low profile thigh guards fit well under tall leg pads
- Extended tail bone protection
- Full stretch crotch and inner leg panels for flexibility
- Available in sizes XS (32-34), SM (36-38), MED (40-42), LG (44-46), XLG (48-50), XXLG (52-54)

NOTE: add 8 to 10 inches to actual waist size then match to sizing in parenthesis to find proper size

## P 8606 EPIC GOAL PANT

The 8606 Epic goal pant is designed with a wide profile cut for added room and comfort in the waist and leg areas to increase flexibility. Wide thigh guards with internal high density five-hole blocks and side slash guards with cushion padding for added protection. Sport mesh internal lining provides for added comfort and quick drying. Side groin internal padding with flex blocks and High density padding in the shell increase protection level and square the frontal area of the pant. Rear leg splits allow the thigh pads to remain properly positioned when down on the ice for more complete leg coverage. Larger tail bone and molded hip protection with thicker padding increase protection. The 8606 goal pant is designed with a softer looser fit with a shorter thigh guard length than our other adult models.

- larger and thicker tail bone protection
- Molded hips and kidney protection
- Cool fit mesh lining
- External padded belt
- Lace up front for added adjustment
- Flex pad on back spine
- Inside thigh protection
- Available in colors: Black, Navy, Red
- Available in sizes: SM (36-38), MED (40-42), LG (44-46), XLG (48-50)

Note: add 8-10 inches to actual waist size then match to appropriate pant size.

# GOAL PANTS

## P 7360 VELOCITY INTERMEDIATE

The 7360 Velocity intermediate goal pant is designed and optimized for performance and protection. Large five-hole blocks with internal support padding provide for added protection and faster more solid closing of the five-hole area. Rear leg splits in the pant shell help keep the thigh guards positioned properly while going down to the ice for added net coverage. Side groin floating flex pads add blocking area and increase protection.

- Lace-up front for added adjustment
- Intermediate sizing and increased protection
- Adjustable belt for customized fit
- Rear leg split to optimize performance
- High density inner thigh protection
- Large thigh guards with cushion padding
- Available in sizes: MED (24-26), LG (26-28), XL (28-30), XXL (30-32)

## P 8404 EPIC JUNIOR

The EPIC 8404 junior sized goal pant features a wide profile cut for added room and comfort in the waist and leg areas for full freedom of movement. Wide thigh guards with internal high density five-hole blocks and side slash guards with cushion padding for added protection. Sport mesh internal lining provides added comfort and quick drying. Side groin protection with sewn in flex blocks with high density padding for added protection. The 8404 pant is designed for a softer loose fit with a shorter thigh length and slightly tapered waist.

- Molded hips and kidney protection
- Large padded tail bone with cushion layering
- Cool fit mesh lining
- Wide lower cut with large stretch panel in crotch area
- External padded belt
- Flexing rear top tail bone extension pad
- Inside thigh protection
- Available in colors: Black, Navy, Red
- Available in sizes: SM (20-22), MED (24-26), LG (26-28), XLG (28-30)

## VGS 7700 COMPOSITE GOAL STICK

The 7700 Velocity goal stick features a construction of carbon fiber and fiberglass for light weight with superior balance and feel. The blade is constructed with special wide weave high tensile strength fibers to provide added strength and feel. The blade features internal ribs for added durability to limit twisting and features a high density internal foam core to absorb shock to reduce rebounding. The paddle area is shaped with a thin profile design and constructed with a full composite exterior with reinforced edging. It has a high density internal foam core to dampen impacts and prevent unwanted paddle flex. This gives the stick incredible response by preventing twisting and also provides additional stiffness for shooting and poke checking. Molded under high pressure to ensure resin transfer and flow through all layers for consistency and strength.

- Paddle heights 25", 26", 27"
- Mid blade twist curve
- Lighter weight construction
- Rounded heel for shooting and puck handling
- Available in Silver or Yellow

Mid Blade Twist Curve

# GOAL STICKS

## VGS 7500 COMPOSITE GOAL STICK

The 7500 goal stick has full graphite carbon fiber and fiberglass construction for extreme light weight and superior balance and feel. The blade is constructed with special high tensile strength fibers and resins with internal ribs for added strength. It features a high density internal core to absorb shock to reduce rebounding and provides excellent feel and control of the puck. The paddle area is shaped with a thin profile design and is constructed with a full composite exterior. It has a high density internal foam core to dampen impacts and prevent unwanted paddle flex. This gives the stick incredible response by preventing torsional twisting and also provides additional stiffness for shooting and poke checking. The edges of the paddle are reinforced with additional layers of fiber to limit chipping and add strength. The molding process is completed under extreme high pressure and heat to ensure full wet out of all the fibers, to ensure complete structural bonding of all the layers of fiber and adhesion to the internal foam core for added durability.

- Paddle height available in 25", 26", 27"
- Full composite construction for light weight
- Heel twist blade curve
- Rounded shoulder at top of paddle
- Internal foam core for low vibration
- Rounded heel area for easy shooting and stick handling
- Available in opposite hand curve
- Available in Silver or Black

Heel Twist Curve

## VGS 8800 CARBON ELITE GOAL STICK

The new 8800 model goal stick has been engineered and optimized to achieve the lightest possible weight with a foam core construction. Carbon elite construction utilizes special woven carbon composite and epoxy resin to achieve lighter weight. The internal foam core features special composite inserts embedded into the foam core for added strength. Aspen and Birch handles are specially selected for weight and density to achieve light weight and balance. The blade features hard laminated strips and Carbon elite construction for added strength and durability.

- Lighter weight than other foam core models
- Carbon elite construction
- Foam core construction for consistency
- Reinforced blade
- Available in paddle heights 24", 25", 26", 27"

Heal Twist Curve

# GOAL STICKS

## VGS 7600 GOAL STICK

The 7600 goal stick is manufactured with foam core construction with internal composite inserts encapsulated in the foam core in the blade and paddle areas for greater strength and light weight. Laminated wood handle with Birch and Aspen layers provides a constant flex and solid feel and allow for exceptional control while shooting. The paddle is a stiffer construction that is achieved with a special pre laminated hard composite that is bonded to the stick for exceptional strength and rigidity. The blade area is high temperature molded with special epoxy resin and also contains hard laminate composite inserts on front and back of blade to provide added strength for durability and to limit blade flex while shooting for stronger more precise shots. Reinforced heel area contains an ABS plastic insert that is

bonded with the foam core to prevent heel splitting to increase durability. The new 7600 goal stick has exceptional balance and is available in paddle heights of 24", 25", 26", 27", custom patterns can also be made with a dozen minimum quantity.

- Stiff construction provides exceptional performance
- Hard laminated composites on outer surface increase durability
- Foam core construction for light weight
- Available in several paddle heights and curves
- Standard in natural finish
- Custom colors can be ordered - minimum orders apply

Mid Blade Curve

## VGS 7450 FOAM CORE

The 7450 goal stick features a foam core internal paddle and blade blended with a laminated Aspen wood handle for excellent balance and feel. The foam core is compression bonded under heat and pressure and molded with a glass exterior to provide stiffness and durability.

- Available in paddle heights 24", 25", 26", 27"
- Heel twist curve with rounded heel and square shape blade end
- Light weight foam core construction

Red/Silver

## VGC 8800 EPIC

The Epic 8800 goal cup features advanced double cup design for the ultimate in protection. The internal cup is the advanced design from Shock Doctor Sports Technology that provides multi stage impact protection. The outer cup is a combination of half inch foam and plastic to dissipate and absorb initial impact for true double layered protection. Contoured waist sectioned area for added flexibility and comfort. Adjustable waist and leg support straps. Durable sport mesh and nylon construction. Available in three colors: standard Black, Black/Red and Black/Navy. Fits waist sizes 32" to 44". Also available in an intermediate size.

**VGC 8800 Intermediate** - fits waist sizes 25" to 32".

## VGC 7500 VELOCITY

The Velocity goal cup features a contoured top waist with high-density padding. Layered foam padding throughout for additional comfort and protection. Large side cushion bumpers and banana-style cup features foam edge bumpers for greater protection. Available in three colors: Black/Silver, Red/Silver, and Navy/Silver. Fits waist sizes 32" to 44".

**VGC 7300** - fits waist sizes 25" to 32".

## VGC 7400

The 7400 Velocity goal cup features a contoured front waist band with HD foam protection. Large style contoured shaped cup with foam edging with additional side impact bumpers for added protection. Adjustable waist band and leg straps fits waist sizes 30" to 44".

## VGC 7200

The junior Velocity goal cup traditional style design features a contoured front waist band with HD foam for added protection. Junior size goal cup with foam edging and additional side bumpers for added protection. Adjustable waist band and leg straps fits waist sizes 20" to 31".

## WPP 900

The women's pelvic protector features a high-density reinforced lower abdominal area contoured for comfort and fit, a full adjustable waist strap with Velcro closure and molded plastic protection with foam padding.

- Durable nylon exterior
- Internal molded foam and plastic
- Fits waist sizes: 26" to 36"

# GOAL BAGS

## BG 7500

Super sized wheeled goal bag is designed to fit an entire set of adult sized goal equipment. Reinforced rip stop nylon construction and double reinforced in wear and stress areas. Webbing reinforced body to distribute weight and add strength, added rivets to carry handles for increased durability. Three wheel design with larger wheels to help keep the bag from dragging when heavily loaded. Reinforced bottom with full length stiffeners and bottom reinforced with plastic to support the weight of the bag when fully loaded with equipment. Webbed straps across the top of the bag allow the diameter of the bag to be adjusted and tightened which keeps the contents centered in the bag for easier pulling or carrying of the bag.

- Dimensions: 43" long x 21" high x 20" wide
- Available in black only

## BG 8800

The BG 8800 super sized goal bag is designed to fit an entire set of adult sized goal equipment. The bag features 1680 denier nylon construction and reinforced in wear and stress areas on the corners and bottom. Heavy duty webbing and straps with added rivets to carry handles for increased durability. Three wheel design with larger wheels to help keep the bag from dragging when heavily loaded. Large number 10 zippered top with wide opening to access interior. Vertical bottom stiffeners and bottom reinforced with plastic to support the weight of the bag when fully loaded with equipment. Interior pockets provide added storage.

- Dimensions: 43" x 21" x 20"
- Available in dark silver with blue and white graphics only

## BG 7400

The 7400 goal bag is extra super sized to hold an entire set of adult size equipment. The bag features extra heavy 1680 denier nylon construction with all internal seams double stitched and bound for added strength. Large number ten coil zipper for added strength and allows the bag to be fully opened for easy access. Heavy duty webbing reinforces the sides and ends of the bag. Large nylon carry handles with box stitched reinforced seams for durability and reinforced hand grasp handles at each end. Reinforced bottom corners with air vent grommets add durability and strength to the construction. The entire bottom surface of the bag is double layered for added strength and water resistance.

- Dimension 44" x 22" x 24"
- Extra rugged 1680 nylon construction
- Large number 10 zipper
- Reinforced corners
- Internal mesh removable wash bag
- Available in black only

# GOAL BAGS

## BG 7300

Large intermediate sized goal bag with three wheel design will fit a full set of equipment with 31" or smaller leg pads. Constructed of rip stop nylon with double reinforced wear and stress areas. Webbing reinforced body to distribute weight and add strength and durability. Reinforced bottom with stiffeners and bottom reinforced with a full layer of plastic to support the weight of the bag when fully loaded with equipment. Webbed straps across the top of the bag allow the diameter of the bag to be adjusted and tightened which keeps the contents centered in the bag for easier pulling or carrying of the bag.

- Dimensions: 35" x 18" x 20"
- Available in black only

## BG 8400

The large junior sized goal bag with two wheel design will fit a full set of equipment with 31" or smaller leg pads. Constructed of 1680 denier nylon with reinforced wear and stress areas. Reinforced bottom with vertical stiffeners and bottom reinforced with a full layer of plastic to support the weight of the bag when fully loaded with equipment.

- Dimensions: 34" x 18" x 20"
- Available in dark silver with blue and white graphics only

# ACCESSORIES

## VPC 7400

The 7400 clavicle protector has high-density plastic and foam layered padding and an adjustable neck strap with durable soft textured sport mesh vented lining and nylon exterior.

- Available in assorted colors

## VPC 7200

- Junior size model

## VPC 8000

Shirt style clavicle and neck protection holds unit more securely in place for added protection and comfort. Mesh outer shirt construction to reduce heat build up, cut resistant BNQ certified design.

- Available in sizes SM, MED, LG. Black only

## VPC 7000

The 7000 clavicle protector has a full ballistic nylon exterior, Velcro adjustable closure and soft internal padding with high density foams for shock dispersal. BNQ certified.

- Available in Adult sizes: MED, LG
- BNQ certified
- Available in Black, Navy, Red

## VPC 7000 JR

- BNQ certified
- Available in Black, Navy, Red
- Available in one size only

## VTG 7500

The 7500 throat shield is designed with a curved and flared chin area that allows the unit to fit tighter to the upper chest for added protection and allows the unit to slide across the jersey without catching and limiting head motion. Molded in Lexan polycarbonate for maximum durability, shock resistance and clarity.

- Available in Clear, Smoke tint, Blue tint, Red tint.

# ACCESSORIES

## VKP 7700

The VKP 7700 knee and thigh guard features a three section design for a close fit. Plastic reinforced thigh padding in two sections and separate lower knee section with a low profile for a close knee fit for control and allows the pad to sit into the leg pad knee cradle. Available in Black, Navy or Red and features three adjustable leg straps. Also available in an intermediate model **VKP 7300**

## VKP 8800

The VKP 8800 features a two piece design with fully molded knee cap for added protection. Molded thigh guard wraps the inner thigh for added coverage. The inner knee features side knee caps with wrap around padding for side inner and outer knee protection, fully adjustable straps and inner grip lining to prevent pad slipping. Available in Black, Navy, or Red. Also available in a junior model **VKP 8400**

## VKP 8400

## VKP 7600

The VKP 7600 knee and thigh protector features a molded shape to allow the protector to fit under the goal pants.

## VKP 7000

Thigh guard features five-hole blocking design with ultra high density foam protection that also provides light weight. Adjustable strap with buckle, lace on attachment, fits any Vaughn adult size leg pad. Available in Black, Blue, Red, and White. Also available in a smaller **intermediate size** **VKP 7070**

# ACCESSORIES

## VJ 7600

The VJ 7600 goal jersey features a large body fit and wide arm area for added room to properly fit over the arm and chest protector. It is constructed of durable Micromesh material.

- Available in colors Black/White, Blue/Black/White and Red/Black/White
- Available in Adult sizes LG, XLG, XXLG

## VJ 7360

Intermediate/Junior sized version of the adult model. Constructed with Micromesh material for durability and ventilation. Wide body and arm fit for added room to properly fit over arm and chest protector.

- Available in colors Black/White, Blue/Black/White, Red/Black/White
- Available in Junior sizes LG, XLG

## REPLACEMENT PARTS

We offer a full line of replacement parts for all Vaughn products, including: leg straps, toe straps and buckles, tie on toe assemblies, knee spacers, blocker palms, mask hardware, sweatbands, chin cups and replacement cages, plastic hardware for arm and chest protectors and replacement blocker board inserts.

# ACCESSORIES

## YHU 8800

Performance underwear designed specifically for the needs of a goaltender. Specific goaltender cut for full freedom of movement, with high performance micro mesh moisture wicking fabric construction. Special placement of vent mesh reduces heat buildup and increases moisture evaporation for less body heat build up.

- Fast drying materials
- Navy blue color with white print
- Mesh inserts to keep goaltender cooler
- Durable materials for long wear
- Lightweight
- Special specific goaltender cut
- Adult sizes: SM, MED, LG, XLG
