# R/G5 LEG PADS

## RITUAL G5 LEG PAD TECHNOLOGY

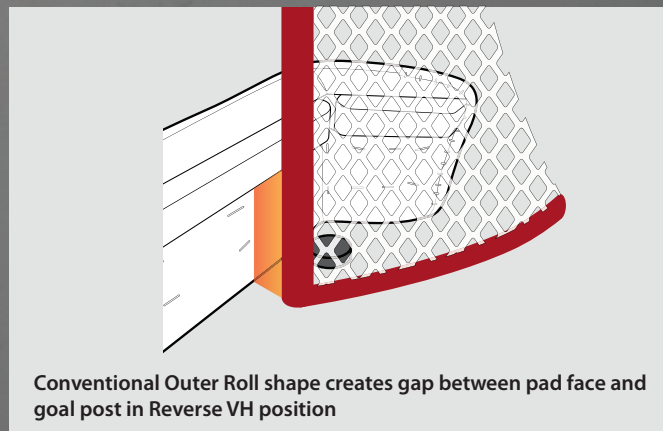

### COVEREDGE+

CoverEDGE+ applies a face-forward design that adds a new dimension to maximizing your coverage in net. By bringing the face of each piece of G5 gear forward, the angle to the puck is further cut down, allowing you to get a piece of pucks that would just miss more conventionally designed gear.

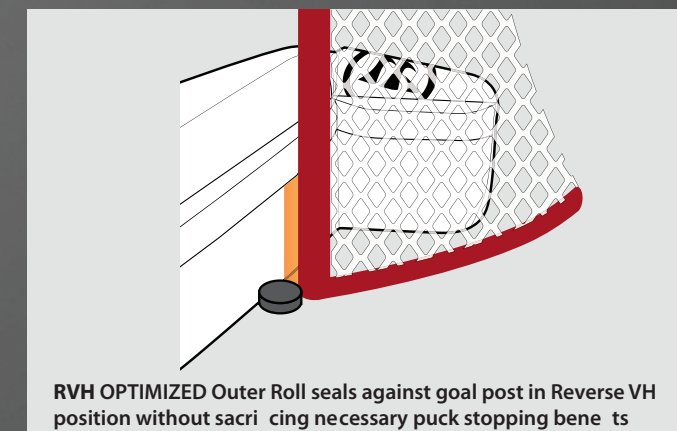

### AIRSLIDE

AIRSLIDE landing surface enhances pad sliding, especially on rough/snowy ice  
-Engineered channels decrease friction by reducing surface area that contacts the ice  
-Diagonal orientation of channels is set to the optimal trajectory for sliding through snow and rough ice

Conventional Outer Roll shape creates gap between pad face and goal post in Reverse VH position

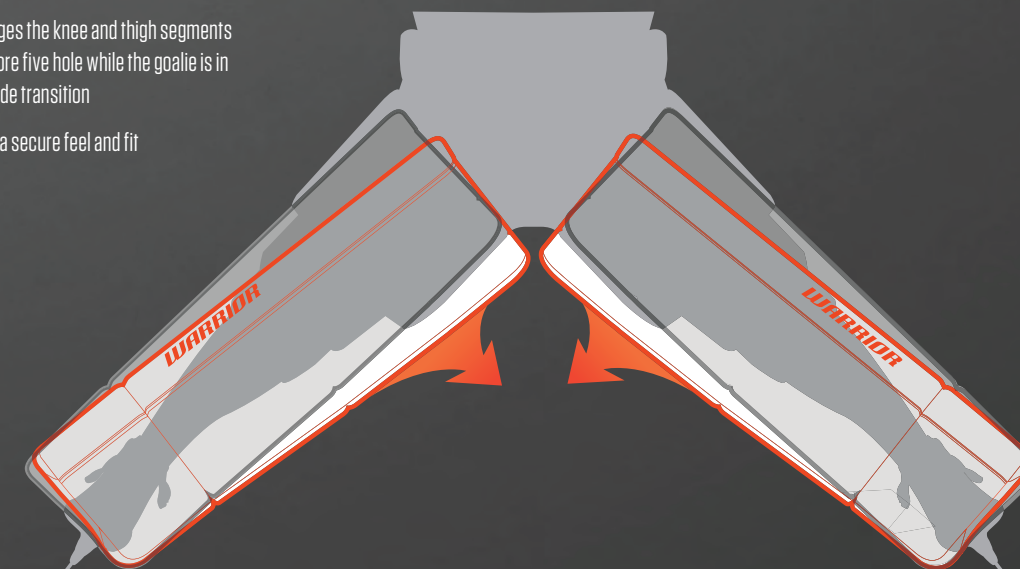

### RVH OPTIMIZED OUTER ROLL

RVH OPTIMIZED Outer Roll seals against goal post in Reverse VH position without sacrificing necessary puck stopping benefits

### 360°ACTIVEDROP

360°ACTIVEDROP Leg Channel enhances five hole coverage  
-Conventional leg channel keeps the pad centered on leg while the goalie is in an upright stance unless the pad is worn extremely loose  
-360°ACTIVEDROP leg channel encourages the knee and thigh segments of the leg pad to drop lower covering more five hole while the goalie is in an upright stance and during butterfly slide transition  
-Active drop occurs while still providing a secure feel and fit

# RITUAL G5 PRO LEG PADS

# RGT2 LEG PADS

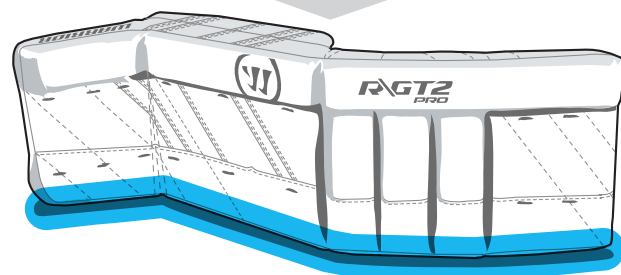

## RITUAL GT2 LEG PAD TECHNOLOGY

### GEOMETRIC TORSION

TORSIONAL FLEX POINTS BELOW THE KNEE AND ANKLE ALLOW THE TAPERED BOOT TO TILT FORWARD AND SEAL ALONG THE ICE WITHOUT CAUSING THE THIGH RISE TO LIFT

COMPLETE PAD SEAL ALONG THE ICE FROM BOOT TO THIGH-RISE

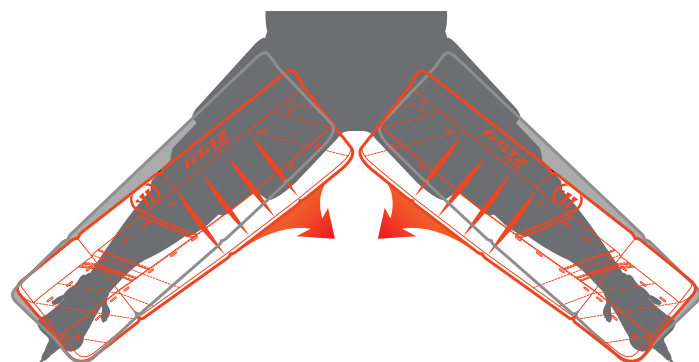

### 360°ACTIVEDROP

360°ACTIVEDROP Leg Channel enhances five hole coverage

Conventional leg channel keeps the pad centered on leg while the goalie is in an upright stance unless the pad is worn extremely loose

360°ACTIVEDROP leg channel encourages the knee and thigh segments of the leg pad to drop lower covering more five hole while the goalie is in an upright stance and during butterfly slide transition

Active drop occurs while still providing a secure feel and fit

# R/G5 CHEST & ARM

## RITUAL G5 CHEST & ARM TECHNOLOGY

### SHOCKSHIELD

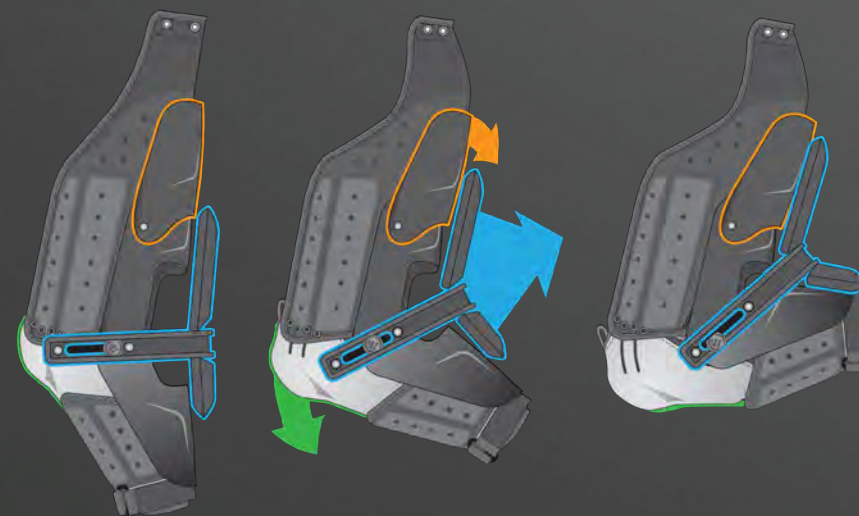

*(Featured on Ritual G5 Pro Chest & Arm)*

**FUNCTION:**

Disperses the impact of the puck across the plastic cap and the trampoline liner

**BENEFIT:**

Increases protection and comfort

### AXYFLEX

*(Featured on Ritual G2 Pro Chest & Arm  
U.S. and Canada patent pending)*

**FUNCTION:**

Facilitates maximum range of motion while providing superior protection

Acts as a hinge, allowing the elbow, forearm, bicep, and floater to move together

**BENEFIT:**

Increases protection, mobility, and comfort

## RITUAL G5 PRO+ CHEST & ARM
